Product Change Notification

Current Date: 20-Oct-2026

TE Connectivity

Product Change Notification: PCN-26-293771 **PCN Date:** 13-OCT-26

Customer: Premier Farnell UK Ltd (PFUK) (101113) **Location:** Leeds **Agreement:** Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: **(Text limited to 120 characters)**
RNF-100 (Black and Colored Versions) VERSAFIT RP-4800

General Description of Changes
Reinstatement of Mil-Spec qualification for selected TE Connectivity heat-shrink tubing products specifically RNF-100 (Black and Colored), VERSAFIT, and RP-4800 following NAVAIR approval of a supplier-directed manufacturing location change. This PCN serves as an update to PCN-26-283716, which had communicated a temporary suspension of Mil-Spec approvals. There is no change to the form, fit, or function (FFF) of the affected products.Note: CRN (Black) and TAT-125 remain on hold under a separate restriction (PCN-26-283718) related to China-origin raw materials, which is addressed independently. **Other attachments:** Cross reference sheet PCN wording file

Reason for Changes:
The temporary Mil-Spec restriction was imposed due to a supplier-directed manufacturing location change that required formal regulatory review before Mil-Spec qualified production and shipments will resume. NAVAIR has reviewed and approved the manufacturing location change, enabling the reinstatement of Mil-Spec certification for the three affected product families.

PCN Attributes:	
Product Category:	**Kind of Change:**
Heat Shrink Tubing	Agency Approvals
Change Feature:	**Potential Customer Impact:**
No Feature Change	No Customer Impact
Remarks:	

Estimated Dates:	
Last Order Date (Obsolete Parts Only):	**First Ship Date of Changed Items** (Changed Parts Only):
	26-OCT-2026
Last Ship Date of Changed Items (Obsolete Parts Only):	**Last Date for Mixed Shipments:** (Changed Parts Only):
	No Mixed Shipments
Effectivity Date:	**Date of First Samples:**
14-OCT-2026

Product Change Notification

Type of Notification	Product Change Notification Update – Mil-Spec Approval Reinstated

Issue Date	Notification No.
XX/XX/XXXX	XXX-XX-XXXXXX

Description of Change	Reinstatement of Mil-Spec Qualification for Heat-Shrink Tubing Products

Dear Customer,

This notification provides an update **to PCN-26-283716**, which communicated the temporary suspension of Mil-Spec approvals for selected TE Connectivity heat-shrink tubing products resulting from a supplier-directed manufacturing location change.

TE Connectivity is pleased to confirm that **NAVAIR has reviewed and approved the supplier-related manufacturing location change**. As a result, the Mil-Spec restriction associated with PCN-26-283716 has been removed for all five impacted product families.

Current Mil-Spec Approval Status
The current status of the affected products is summarized below:

Product	Current Mil-Spec Status
RNF-100 (Black and Colored Versions)*	**Reinstated** – Mil-Spec approved production and shipments will resume
VERSAFIT	**Reinstated** – Mil-Spec approved production and shipments will resume
RP-4800	**Reinstated** – Mil-Spec approved production and shipments will resume
CRN (Black)	**Remains blocked** – Due to a separate issue under PCN-26-283718
TAT-125	**Remains blocked** – Due to a separate issue under PCN-26-283718

**Note: Only RNF-100 versions with alpha color codes (e.g., "BK") carry Mil-Spec approval*

Important Clarification: Although the restriction associated with PCN-26-283716 has been fully resolved, **CRN (Black) and TAT-125 remain subject to a separate Mil-Spec restriction** related to China-origin raw materials, as communicated in PCN-26-283718. Mil-Spec approved production and shipments for these two product families remain on hold pending resolution of that separate issue.

For the three product families with reinstated approval, applicable products will again carry the appropriate Mil-Spec designation and labeling.

Upcoming Mil-Spec Part Numbering Changes
To minimize future supply disruptions to customers, TE Connectivity is planning to introduce a dedicated Mil-Spec part numbering convention using the suffix "-MS". This will separate Mil-Spec approved products from standard commercial part numbers, allowing standard products to remain available in the event of future Mil-Spec approval restrictions.

This change is not being implemented through the current PCN. A separate PCN will communicate the implementation timeline, affected part numbers, and any required customer actions.

TE Connectivity appreciates your patience and cooperation throughout this approval process.

For further information or assistance, please contact your local TE Connectivity account representative.

Sincerely,
Megan Hannagen
Product Manager
TE Connectivity – Performance Materials

Frequently Asked Questions (FAQ)

1. Which specific part numbers are affected by this PCN?
The list of affected part numbers is provided in the attached Excel sheet.

2. Is there any change to the product's form, fit, or function (FFF)?
There is no change to the form, fit, or function of the affected products. The only change pertains to the reinstatement of the certification.

3. What is the effective date for this change?
The effective date of this change is immediate. Customers may order the affected products with the reinstated MIL-SPEC certification without delay.

4. Is customer approval or re-qualification required before shipments with the new material origin begin?
Customer approval or re-qualification is not required for this change. However, customers subject to specific contractual, quality, or regulatory requirements regarding material origin changes should engage with their TE Connectivity account representative to assess and complete any necessary review or approval activities.

5. What was the original issue communicated in PCN-26-283716?
PCN-26-283716 communicated a temporary suspension of Mil-Spec approvals for selected TE Connectivity heat-shrink tubing products. The suspension was caused by a supplier-directed manufacturing location change that required formal regulatory review before Mil-Spec qualified production and shipments could resume.

6. When will the Mil-Spec restriction on CRN (Black) and TAT-125 be lifted?
Resolution PCN-26-283718 is in progress. Once approved, the Mil-Spec restriction on CRN (Black) and TAT-125 will be addressed through a separate PCN. For updates, contact your local TE representative.

7. Why is TE Connectivity introducing the "-MS" suffix convention?
TE Connectivity plans to introduce a dedicated Mil-Spec part numbering convention using the suffix **"-MS"** to structurally separate Mil-Spec approved products from standard commercial part numbers. This is intended to preserve commercial supply continuity in the event of future Mil-Spec approval restrictions.

8. Is there any required customer action associated with this PCN update?
No customer action is required. Customers requiring Mil-Spec certified products may continue to order them with the applicable certification.
