

Ungar

201-182

Ungar is a name which has been associated with the electronics industry for 50 years. Offering a wide range of soldering equipment, desoldering equipment and accessories, and hand tools Ungar is a name synonymous with quality and reliability.

NOTE: Full range of spares listed in price list.

Soldering stations and irons.

2110 Soldering system

The model 2110 high capacity soldering station with its ergonomically designed micro-soldering iron can be used on most soldering tasks. The fully grounded tip with zero crossover closed loop control of the advanced ceramic heater make the 2110 safe for use with most sensitive components. Handle and case are ESD. Heating element can be swiftly replaced. Six styles of thermal thrust tips are available or for delicate soldering 13 standard 9000 series tips.

Features:

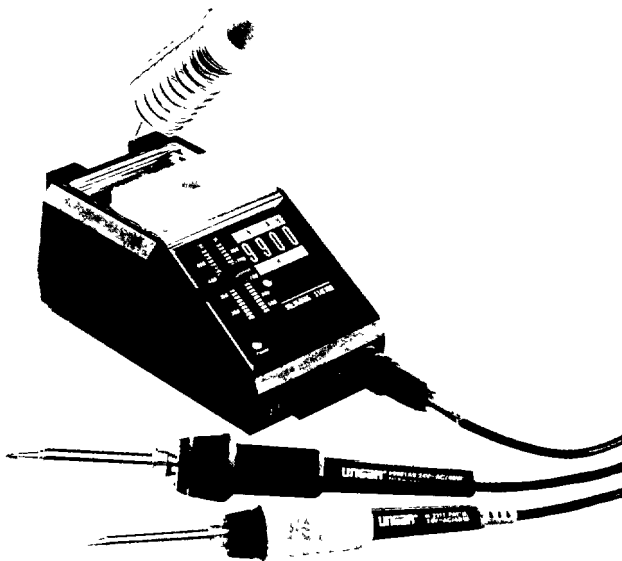

- Temperature variable between 285°C (550°F) and 450°C (850°F).
- Temperature stability at idle $\pm 6^{\circ}\text{C}$ (10°F).
- Extensive range of tips available.
- 240V AC mains power unit.
- Fitted with soldering iron rest and tip cleaning sponge.

Cat No	V	Description
2110-K	240	Complete station with 2111AT iron

Accessories

2111-AS		Replacement soldering iron with 9012 TIP
2111-AT		Replacement soldering iron with 9058 TIP

9900 Soldering system

The 9900 electronically controlled, temperature variable, soldering systems are suitable for most electronic production applications. A closed loop circuit provides temperature stability at idle position. Zero switching and grounding from tip to plug makes stations suitable for work on voltage sensitive components, and with the 9931AS soldering iron even thick multi-layer boards can be handled.

Features:

- Temperature variable between 285°C (550°F) and 450°C (850°F).
- Temperature stability at idle $\pm 6^{\circ}\text{C}$ (10°F).
- Extensive range of slide-in soldering tips available
- Choice of soldering irons.
- 240V AC mains power unit.
- Supplied with soldering iron holder and tip cleaning sponge.

Cat No.	V	Description
9910HC-K	240	Complete station with 9911AS iron
9930AS-K	240	Complete station with 9931AS iron

Accessories

9911-AS		Replacement soldering iron
9931-AS		Replacement soldering iron
9900AS-K		Replacement power unit
