

## PCB Storage Rack

Polypropylene holders for storage, transportation and protection of PCBs during manufacture and assembly. The racks are resistant to most liquids used in production processes and withstand temperatures of up to 120°C. Each rack holds 25 boards of varying sizes. Size 1 - D210 x W274 x H83mm, Size 2 - D355 x W265 x H127mm. Maximum board thickness: 2.5mm
