

tesa® 6300

Packaging hand dispenser

PRODUCT INFORMATION

Product Description

The tesa® 6300 hand dispenser is a good value dispenser for professional sealing with all kinds of tesa® packaging tapes in packaging and production areas. The dispenser has a tension control so that even easy unwinding tesa® tapes can be used without difficulty. The blade is covered to prevent injury.

Main Application

Place the dispenser on the carton and pull it towards yourself. The rubber contact roller presses the tape down firmly as it is applied from the roll. The tape is cut by the serrated blade by tilting the dispenser. The cut end of the tape is pressed to the carton by the flexible application plate. Threading: the tesa® roll is put on the tape wheel such that the adhesive side of the tape faces the handle. Pull the end of the tape between the tape guide roller and the metal plate until the tape is free of wrinkles.

Technical Data

Type of applicator	hand	Max. roll width	50 mm
--------------------	------	-----------------	-------

Properties

Application purpose	packaging	Weight	400 gram
Length	220 mm	Max. roll diameter	120 mm
Width	65 mm	Max. core diameter	3 inch
Height	150 mm
