

## 1-1 Video Door Entry Kit

This is an easy-to-use video door entry kit. When a visitor presses the call button, the video camera automatically transmits the image of the visitor to the monitor, while an electronic chime signals a visitor at the door, in addition to providing two-way audio communication.

- Automatic video transmission
- No fuss installation
- High quality CCD image
- Infrared LED array
- Electronic door release output (lock release not included)
- Up to 3 monitors on one system
- Adjustable camera angle
