

LabelMark™5 Label Design Software

www.BradyID.com/labelmark

Design and print
labels directly
from AutoCAD,
MS Excel,
and Visio

LabelMark™5 Software can integrate data sources, label designs and batch printing into one cohesive system – a time-saving solution for operational label set up, management and execution.

With single-click importing and serialization, an interactive custom label creator and a complete integration with MS Office and AutoCAD applications, LabelMark™5 Software is a user-friendly label design and printing software for high performance labeling.

Save time with new label set up and data management features

- Apply imported data and serialization legends to labels with a single click
- Use electrical labeling wizards for control panel, 110 Block, and wire harness assembly to create the jobs' necessary labels
- Manage multiple files in a single job by grouping wire markers, push buttons, rating plates, and terminal block labels into one job file

Print labels faster and more efficiently with advanced printing capabilities

- Print labels simultaneously on multiple printers for fast label kitting
- Design fixed text labels for quick printing or free form labels for custom label design

With built-in templates, wizards, fixed text labels and free form design capabilities, LabelMark Software simplifies label making for any of the following applications:

- Wire and cable marking
- Terminal block marking
- Control panel and component marking
- Rating plate identification
- Voice and data equipment labeling
- TIA/EIA/ANSI 606A compliance
- Conduit and voltage marking
- 110-block marking
- Cable tray identification
- And more!

LabelMark™5 Software is the fastest, easiest way to create labels.

Label Design

- Easy-to-use wizards for creating labels for wire harness and control panel jobs
- Insert and edit AutoCAD layers, area of interests or entire files onto labels
- Automatically repeat text on multiple lines of a label with LabelMark wire marker tool
- Duplicate an existing list of labels with reversed or flipped text in one step
- Multi-label view for true representation of label formats

Data Management

- Import data onto a label from an external data source with a single click
- One-step label serialization
- “Check error” function to locate any errors in imported data prior to printing the labels

Label Printing

- Assign label materials to a specific printer for dedicated printing
- Create one job to simultaneously manage multiple print jobs and printers
- Bi-directional communication with the IP printer series for automatic label format loading

System Requirements:

- Supported Operating Systems: Windows® Server 2000 & 2008, Windows® Vista (SP1), Windows® XP, Windows® 7
- Processor: 1GHz Pentium processor or higher
- RAM: 512 MB or higher
- Hard Disk: Up to 500 MB of available space may be required
- DVD Drive
- Display: 1024 x 768 high color, 32-bit or better

Versatile, heavy-duty Brady printers that make the most of your software's capabilities.

- Wraaptor™ Wire ID Printer Applicaton
- IDXPERT™ Handheld Labelers
- TLS 2200® and TLS-PC Link™ Thermal Labeling Systems
- Brady IP™ Series Printer System
- Bradyprinter™ PR Plus
- BBP®11 Label Printer
