Manganese Dioxide Lithium Cylindrical Batteries: Individual Specifications

### CR2

**Dimensions (mm)**

- Nominal voltage (V): 3
- Nominal capacity (mAh): 750
- Continuous standard load (mA): 20
- Operating temperature (°C): -40 ~ +70°

* Please consult Panasonic for use below and above -20°C to +60°C

**Weight:** 11.0g

### CR123A

**Dimensions (mm)**

- Nominal voltage (V): 1,400
- Nominal capacity (mAh): 1,400
- Continuous standard load (mA): 20
- Operating temperature (°C): -40 ~ +70°

**Weight:** 17.0g

* Please consult Panasonic for use below and above -20°C to +60°C

**Temperature Characteristics**

- Load: 30°C (±45mA)

* Please consult Panasonic for use below and above -20°C to +60°C
