Thank you for showing your confidence in us by purchasing the BEHRINGER DIGITAL REVERB DR600. This ultimate effects pedal is specifically designed to deliver 24-bit high-resolution stereo reverbs comparable to state-of-the-art studio processors. Thanks to six renowned modes and extensive parameter control for maximum creativity you’ll have plenty of cool sounds at your disposal for every situation.

1. CONTROLS

The **LEVEL** control adjusts the output level.

The **TONE** control allows you to shape your overall sound.

The **TIME** control determines the reverb time.

The **MODE** control lets you choose between six different reverb sounds:

- **SPRING**: Simulates classic spring reverberation.
- **PLATE**: Simulates the sound of plate reverberation.
- **HALL**: Very bright reverb that simulates the reflections of a concert hall.
- **GATE**: This effect synthetically cuts off reverberation after a period of time.
- **ROOM**: Clearly hear natural room acoustics.
- **MODULATE**: By detuning the reverb tail it creates spacious, almost choir-like reverb that reminds a little bit of a chorus effect.

The **ON/BATT** LED illuminates when the effect is activated. It also serves as a battery level indicator.

Use the footswitch to activate/deactivate the effect.

Use the two 1/4" TS connectors **IN A** and **IN B** to plug in a stereo input signal. For mono use just plug in **IN A**.

The two 1/4" TS connectors **OUT A** and **OUT B** send the signal to your amp. Use both connectors if you want to achieve full stereo effect. For mono use just plug in **OUT A**. Use the **DC IN** connection at the front of the unit to plug in a 9 V power supply (not included).

The **BATTERY COMPARTMENT** is located underneath the pedal cover. To install or replace the 9 V battery, press the hinges with a ballpen and remove the pedal cover. Be careful not to scratch the unit.

The **DR600** has no on/off switch. As soon as you insert the jack into the **IN** connector, the DR600 begins running. When not using the DR600, remove the jack from the **IN** connector. This extends the life of the battery.

The **SERIAL NUMBER** is located at the bottom.
2. WARRANTY

For our current warranty terms, please refer to our website at http://www.behringer.com.

3. SPECIFICATIONS

In A
- Connector: 1/4" TS
- Impedance: 500 kΩ
- Impedance mono: 250 kΩ

In B
- Connector: 1/4" TS
- Impedance: 500 kΩ

Out A
- Connector: 1/4" TS
- Impedance: 1 kΩ

Out B
- Connector: 1/4" TS
- Impedance: 1 kΩ

Power supply: 9 V m., 100 mA, regulated
- BEHRINGER PSU-SB
  - U.S./Canada: 120 V~, 60 Hz
  - China/Korea: 220 V~, 50 Hz
  - U.K./Australia: 240 V~, 50 Hz
  - Europe: 230 V~, 50 Hz
  - Japan: 100 V~, 50 - 60 Hz

Power connector: 2 mm DC jack, negative center

Battery: 9 V type 6LR61

Power consumption: 90 mA

Dimensions (H x W x D): approx. 54 mm (2 1/8") x 70 mm (2 3/4") x 123 mm (4 4/5")

Weight: approx. 0.33 kg (0.73 lbs)

BEHRINGER is constantly striving to maintain the highest professional standards. As a result of these efforts, modifications may be made from time to time to existing products without prior notice. Specifications and appearance may therefore differ from those listed or shown.

4. SAFETY INSTRUCTIONS

Do not use near water, or install near heat sources. Use only authorized attachments/accessories. Do not service product yourself. Contact our qualified servicing personnel for servicing or repairs, especially when power supply cord or plug is damaged.

No utilice cerca de agua o instale cerca de fuentes de calor. Utilice sólo accesorios y aditamentos autorizados. No intente reparar el producto usted mismo. Contacte a nuestro personal técnico cualificado para servicio y reparaciones, especialmente cuando la fuente o el cable de alimentación estén dañados.

Не эксплуатируйте прибор вблизи от источников воды и тепла. Применяйте только авторизованные дополнительные устройства. Никогда не ремонтируйте прибор самостоятельно. Ремонт может производить только квалифицированный специализированный персонал, особенно при повреждении сетевого провода или сетевой вилки.

不仅在靠近水源或热源处使用，或安装时远离热源。只可使用制造商提供的配件，切勿自行维修，且务必在电源线或电源插头损坏时向我们的客户服务部寻求帮助。

DIGITAL REVERB DR600

complies with the FCC rules as mentioned in the following paragraph:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Important information:

Changes or modifications to the equipment not expressly approved by MUSIC Group can void the user’s authority to use the equipment.
