

## Wattage and current meter PM 230

- A modern electronic monitoring system permits readout of electricity consumption and running costs of connected appliances. 8 useful functions help you to save electricity and money, and tell you the time.
- Clear display of actual time and day of the week.
- Voltage and frequency in Volts and Hertz.
- Energy consumption in Watts.
- Total energy consumption during measuring time.
- Total costs of energy consumption.
- Operating indicator.
- Data memory in case of power cut.
- Energy consumption in Amps and cos phi.
- Measuring time in hours and minutes.
- Costs of electricity in KWh.
- Includes batteries.
- 240 V / 13 A.

| Article No. | Barcode | UP | Type   | Nominal current |
|-------------|---------|----|--------|-----------------|
| 1 50621 3   | 074822  | 2  | PM 230 | 13 A            |

Design protected.

## Digital Weekly Timer HBT 100

- Clear display for days, hours (12 or 24 hour rhythm), minutes and seconds.
- 20 ON/OFF programmes for day, hour and minute setting.
- Various additional functions such as:
  - Countdown function (from 24 hrs. to zero)
  - Random function, GMT/BST (summer/winter time)
  - Manual ON/OFF
  - Programme interruption
  - Data memory in case of power cut (2 batteries AG13 included).
- Operating indicator.
- Clear LED display.
- 240 V/13 A.
