Description

A bench mounting, hand operated lever press, which together with a variety of punching, cutting and forming tool accessories, provides a universal service for sheet metal working in both workshop and production environments.

Constructed from high quality carbon steel, with a stove enamel finish, and preclusion machined rack and pinion, a constant pressure through the complete stroke up to 3000 lbs is achievable. Easy to set up and operate, the press features an adjustable screw to limit the ram downwards movement, and a lever with lockable length and angle adjustment.
