

# COSHH Data Sheet

**Item: Disinfectant Cleaner**

**Date Of Issue: 20/09/2011**

## IDENTIFICATION OF MATERIAL

<b>Trade Name:</b>	Disinfectant cleaner, trigger spray
<b>Composition:</b>	A synergistic blend of QAC, Wetting Agents, Viricides, Fungicides , Anti Yeast agents.
<b>Appearance:</b>	Clear coloured mobile liquid
<b>Odour:</b>	Mild Chemical odour.
<b>Flammability:</b>	Essentially Non flammable
<b>Specific Gravity</b>	Typically 0.9 - 0.95
<b>pH:</b>	4.4 to 4.8
<b>Solubility in Water:</b>	Soluble in water in all proportions

## CLASSIFICATION, PACKAGING & C.H.I.P.S. REGULATIONS UK 1994

<b>Un No:</b>	N/A
<b>Class:</b>	N/A
<b>LD50(RAT):</b>	Above 2000mg/Kg
<b>Export Group No:</b>	380890.90.0

## STORAGE AND HANDLING PRECAUTIONS

The wearing of rubber gloves is recommended for handling and prolonged use of the solution.  
Protect from freezing conditions and direct sunlight. Store at under 30°C

## CORROSIVE ACTIONS AND HAZARDOUS CHEMICAL REACTIONS

<b>Eye Contact:</b>	Flush with copious amounts of water for at least 15 minutes. See a physician if irritation continues.

**Skin Contact/****Absorption:**

Mild irritation may occur if the scrub comes in contact with broken skin.

**PRODUCT FEATURES**

The disinfectant cleaner is a new generation of disinfectant / cleaner which has been extensively tested against a wide range of gram negative and gram positive bacteria, viruses, fungi, yeast's and moulds.

The product has been formulated for use in high risk areas, where contamination of light and heavily soiled surfaces occur. Its performance as a disinfectant is not effected by heavy soiling and is recommended for cleaning and disinfecting surfaces contaminated with;-

Body fluid spillage's      Food area spoilage      Organic debris including sewage      Grease and cooking oils

The product is non toxic, safe and simple to handle, food safe and non tainting. It is safe to use on all types of surface including glass, fabrics, food equipment and utensils. It is especially good in cleaning plastic surfaces and leaves a residual mono-molecular anti-microbial layer. It also leaves an antistatic film which retards the build up of soiling.

**DIRECTIONS FOR USE**

Apply by means of cloth, swab, sponge trigger spray.

Wipe surface thoroughly to remove all debris and allow them to dry.
