

Ball Socket Swivel Bench Vice

A very high quality, bench mounting vice which is fully adjustable with tilt, turn and swivel around the advanced ball and socket mechanism which supports the jaws. The jaws are adjusted with a wheel mechanism; ideal for fast, yet precise, adjustment. The jaws have a capacity from 0±70mm and have nylon jaws to prevent damage to irregularly shaped objects.

- Hold your work anywhere you want it
- Manufactured in the USA to precise exacting standards
- The vice is 160mm high and weighs 1.2kg
