

3M™ Volition™ VOL-PPCBHD-F32K Keystone Patch Panel for 32 RJ45 in 1U

Part of 3M™ Volition™ Network Solutions, the new Keystone Patch Panel for 32 RJ45 in 1U provides more ports in the same space than the standard modularity (24 ports in 1U), offering a suitable solution for high-density applications, such as Data Centres, allowing easy patch cords management at the same time.

Features

- High performance patch panel
- High density modular concept
- Fully shuttered presentation when loaded
- Direct and individual earthing connection upon insertion of jacks (FTP and STP 360° shielded jacks)
- Total shielding on STP 360° Category 6A shielded jacks (K6ASE only)

Benefits

- Class EA/Category 6A patch panels when loaded with the RJ45 K6ASE jacks
- Individual installation and replacement of jacks gives easier and more economical maintenance
- Increased dust protection, especially during installation or in a dirty environment
- Increased EMC protection, minimising conducted interference
- Protection against ANEXT between jacks in the same panel

Specification

Features

- Colour: black aluminium
- Compatible with jacks having Keystone mounting
- Compatible with K6ASE (straight cable entry), K6 UTP and FTP and K5e UTP and FTP jacks
- Dust protected ports when loaded with K6A, K6 or K5e jacks
- Cable management tray
- Flexible labelling facilities - port by port, according EIA/TIA 606
- Port blanking and coloured identification caps options
- Delivered with screws, cage nuts, earthing bolt, cable ties
- Individual port shielding in shielded versions
