EASY ZIGBEE PACK

What does it do?

This product is a bundle containing a selection of E-blocks development boards – including an internet board - as well as a professional version of Flowcode graphical development software.

Benefits

• Facilitates rapid development of embedded internet based projects

Features

• Ideal for Zigbee system development
• Includes a full copy of Flowcode
• Great for learning and project development

Description

This bundle includes everything you need to rapidly develop Zigbee based systems linked to microcontroller hardware. The bundle includes a copy of Flowcode V3 professional, three E-blocks PICmicro microcontroller USB multiprogrammers, LCD board, LED board, switch board, three Zigbee boards, two sensor boards, power supply, and three 16F877A devices. Flowcode macros for rapid Zigbee development are available. Datasheets on each individual item are available separately.

Included in the bundle:

PRODUCT CODE	DESCRIPTION
EB003	E-Blocks sensor interface x2
EB00400	E-Blocks LED board
EB00500	E-Blocks LCD board
EB00600	E-blocks USB Multiprogrammer x3
EB00700	E-Blocks Switch board
EB051	E-blocks Zigbee board x3

EB355	E-Blocks User guide
ELSAM	ELSAM mini CD ROM
HP16F877	PIC16F877A x3
HP459	I-Code SLI card
HP5328	International power supply with adaptors x2
HPUSB	USB lead
TEFLCSI3	Flowcode V3 professional
