

USB Desk Grommet Part Number: USB150

USB connections are commonly used for all PC media such as cameras, memory sticks, Skype phones and phone chargers etc. Fitting the desktop grommet avoids kneeling under the desk and fiddling with the rear of the PC.

The hub of the unit can slide in and out of the grommet frame, meaning a 13A plug can fit through it and launch leads exit the bottom of the unit for connection to the computer

Key Features:

- Built into desk to provide a tidier workspace
- 3 port USB hub allows you to easily connect other external devices including mice, keyboards, flash drives / memory sticks, printers, and other USB peripherals
- Audio-in and audio-out for easy connection to audio equipment
- Multi-card reader; supports DS / MMC / SDHC / Mini SD / MS / MS Pro / MS Duo
- Supports high speed data transfer up to 480 Mbps
- USB 2.0 interface, fully backwards compatible with USB1.1 Devices
- Driverless: Supports hot-swapping and 'Plug-n-Play'
- Doubles up as a standard desk grommet.

Specifications:

Interface:	USB
Data Transfer Rate:	High speed: 480Mbps Full Speed: 12Mbps Low speed: 1.5Mbps
Indicators	LED for power
Operating Temperature:	0~70°C
Storage Temperature:	-20~60°C
Operating Humidity:	0%~60% RH, non-condensing

System Requirements:

PC & Mac compatible
Windows 2000 or above
