

Features:

- A range of case hardened steel, rectangular and square punches and dies
- The Punches and dies have been designed to suit standard sizes for rocker switches, IEC panel mounting connectors and other standard panel mounting products
- Designed specifically for use with the 3000lb lever press 900-0000, these punches and dies incorporate the same design as the case hardened circular range, thereby allowing them to be used with or without the necessity of a stripper
