

Slot Guillotine

Features:

- The slot guillotine is a 3 × 70 mm slitting tool, which is used for accurately guillotining and slitting sheet material without distortion
- The unit fits onto the 3,000 lb press (900 - 0000) via the standard M8 capscrew holes on the press baseplate
- Fixing holes are on centres 55 × 35 mm the hardened cutting blade incorporates a location tag (heel) to allow continuous cutting without the need for resetting
- The cut slugs are easily removed via the recess in the baseplate, with a small screwdriver or drift
- When used in conjunction with back and side stops, it is an essential accessory for producing templates in box making and for ropping sheet material to length
