High-Level Kitchen, Canopy & Tile Cleaning

Before - The Hard Unsafe Way

After - The Easy, Safe and Efficient Way

Grout Cleaning

Reaching and stretching is not the most practical or cleanest way of cleaning grouting.

Using a Interchange Handle and Grout Brush saves your back, cleans without strain and is more hygienic.

Tile & Wall Cleaning

Stretching over work surfaces and appliances is not the cleanest way of cleaning your tiles.

Using a Interchange Handle and a Tile & Wall Cleaner complete with a Syntex or Degreasing Head saves your back, cleans without strain and is more hygienic.

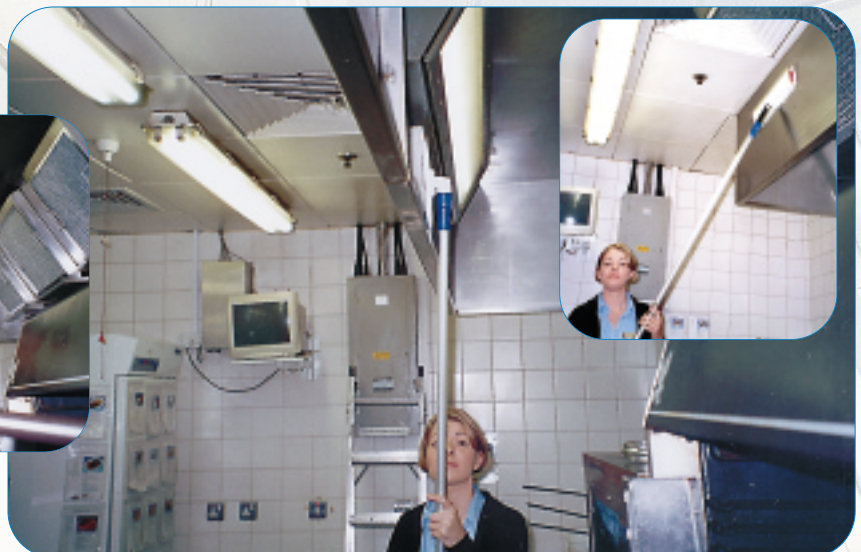

Hood Cleaning

What a balancing act on a step ladder !

With your feet firmly on the floor and using a Interchange Handle, Pad Holder

and Abrasive Pad or Tile & Wall Cleaner you will be safer and clean more thoroughly.

Use a spray bottle containing chemical to wet Tiles, Wall, Syntex Head or Lightweight Cloth over Syntex Head.

High-Level Cleaning

High-Level Kitchen, Canopy & Tile Cleaning

Kitchen Canopy Cleaning

Use a Freedom Interchange Handle with a Angle Adaptor and Grout Brush for tight angled corners.

For higher, flatter surface area cleaning, use a Studloc Pole and a Pad Holder c/w White Non-Scratch Pad. This is ideal for hard to reach areas.

Kitchen Extractor Cleaning

By using the Interchange Pole and Grout Grabber you can clean safely into those corners you wouldn't even get to with just a cloth.

Kitchen Hood Cleaning

For the exterior of hoods, simply using the Interchange Pole with a Tile & Wall Cleaner c/w Syntex Heads makes the job effortless.

High-Level Tile & Wall Cleaning

Without standing in the bath use a
22" Interchange Pole, together with a
Tile & Wall Cleaner c/w Syntex Head.

Once again without standing in the
bath use a 22" Interchange Pole,
together with a Grout Brush to clean
grouting.

Without standing on a work top or
reaching across a work top use a
Studloc Pole, together with a Tile &
Wall Cleaner c/w Syntex or
De-Greasing Head to clean walls.
It's Effortless...
