

CircuitWorks® Overcoat Pen

The pen dispenser for precise application of a tough protective acrylic conformal coating

- Simple to use, single component system
- Hard, durable coating
- High dielectric strength helps prevent electrical discharge
- Dries quickly at room temperature
- Protects against moisture and abrasion damage
- Meets requirements of MIL-I-46058C and IPC-CC-830A
- Choice of clear, blue or green coating

Applications:

- Protects conductive pen traces
- Repairs permanent solder mask with conformal coating
- Prevents shorting and arcing

CW3300C Clear 4.9 g (0.16 oz)

CW3300G Green 4.9 g (0.16 oz)

CW3300B Blue 4.9 g (0.16 oz)
