

Thank you for showing your confidence in us by purchasing the BEHRINGER ULTRA CHORUS UC200. This ultimate effects pedal is designed to deliver super-thick chorus with unbelievable stereo effect. Thanks to its high-performance features you'll have full parameter control for absolute flexibility and limitless creative options.

The chorus effect slightly detunes the original signal. A very pleasant detune effect is created in connection with the pitch variation. The chorus effect is used often and quite extensively used for dispersing signals.

## 1. CONTROLS

Top view

- 1 The *LEVEL* control adjusts the output level.
- 2 The *TONE* control allows you to adjust the overall effects sound and achieve a more defined and brilliant tone.
- 3 The *RATE* control determines the chorus effect speed.
- 4 Turn up the *DEPTH* control to achieve a fuller, deeper effect sound.
- 5 The *ON/BATT* LED illuminates when the effect is activated. It also serves as a battery level indicator.
- 6 Use the footswitch to activate/deactivate the effect.
- 7 Use this 1/4" TS *IN* connector to plug in the instrument cable.
- 8 The two 1/4" TS connectors *OUT A* and *OUT B* send the signal to your amp. Use both connectors if you want to achieve full stereo chorus effect. For mono use just plug in *OUT A*.

Use the *DC IN* connection to plug in a 9 V power supply (not included).

The *BATTERY COMPARTMENT* is located underneath the pedal cover. To install or replace the 9 V battery, press the hinges with a ballpen and remove the pedal cover. Be careful not to scratch the unit.

### **ULTRA CHORUS UC200**

complies with the FCC rules as mentioned in the following paragraph:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

#### **Important information:**

Changes or modifications to the equipment not expressly approved by MUSIC Group can void the user's authority to use the equipment.
