

Ultra High Temperature Miniature Connectors
Exclusive-High Purity Alumina Body
Type SHX & USHX Rated to 560°C (1200°F)

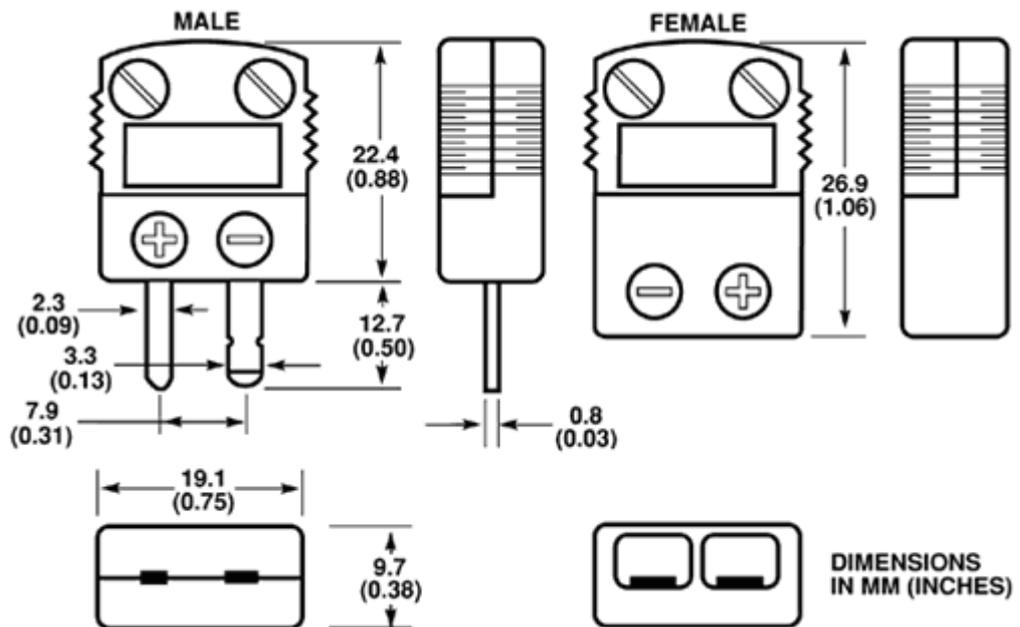

High Purity Alumina!

FEATURES

- ✓ Extra Heavy Duty Ceramic Construction
- ✓ One-Piece Body with Removeable Cap Design
- ✓ Oversized Terminal Screws for Easy Wiring
- ✓ Accepts Stranded or Solid Wire up to Size 20 AWG

SHX subminiature connectors are ideal for use with fine gage thermocouple wires in applications where high temperatures are required. The SHX connector is permanently dot-coded to conform to ANSI and NEWPORT standards; for applications such as high vacuum furnaces where contamination would adversely affect the process, USHX connectors are shipped with a removable color-coding dot. Two-piece ceramic construction assures long life, while the oversized terminal screws allow for easy wiring.

Available with:

- Type SHX Glazed Color-Coded Dot
- Type USHX Unglazed Removable Color Dot
