

00057136 Hama Media Hub, titan/silver

Connect up with Hama!

Are you in the position where you want to use your headphones and microphone interchangeably but find it to become quite a frustrating, inconvenient and timely task, having to connect up and disconnect a device everytime you want to use it with your PC or notebook, due to lack of USB ports available. Lucky for you, Hama have yet again come up with a perfect solution with the Hama Media Hub, allowing you to use your microphones, headphones and more simply, easily and most importantly fuss free.

Connect up with Hama!

The Media Hub from Hama, in a stylish titanium and silver colour, will make switching between headsets and loudspeakers possible without having to spend your precious time removing or inserting plugs. The sound card connections are made simply and easily by extending from the rear of the PC/notebook to the front of the PC/notebook or the monitor, so you can use your microphone and headphones interchangeably with ease at your convenience. All in all, this product provides a simple, easy and convenient solution to your problems, providing a hub for all your favourite devices including microphones, headsets and more. Connect up today with the fantastic Media Hub from Hama!

- Sound card connections are extended from the rear of the PC to the front or to the monitor
