

00054538 Hama USB Angle Adapter, plug - socket

Bent and kinked cables a feature of your home? In some circumstances, such as in tight spaces behind the television, it is necessary to bend cables which leads to kinks to connect up electronic devices, which can severely impact on the performance of the interconnecting devices and the life span of the cable itself. With the fantastic USB Angle Adapter from Hama, kinks and bends will be a thing of the past and simple connectivity will be a thing of the present and the future.

Connect up with Hama!

The fantastic USB Angle Adapter from Hama, suitable and tested for USB 2.0, backward compatible with USB 1.1, is a fullmotion adapter which has the ability to solve space problems behind flat monitors/TVs and prevent kinked cables, whilst producing impressive, high speed data transfer rates of up to 480 Mbps. The 180° joint ensure a space-saving installation of the cable and the plug which can also be rotated 180°, makes connections from different angles in a minimum of space possible. Genius! What is more, the adapter boasts a gold plated plug with low contact resistance so you can reap the benefits of a continuously, secure connection. Enjoy long lasting connections today with the brilliant Hama USB Angle Adapter.
