

VGA CAT5 Extenders

Video

Audio/Video

These boxes allow you to send video or video and audio data along a CAT5 cable to a pair of monitors up to 150m away. This makes them ideal for use in shop displays, exhibitions or information points where access to a computer is not required or is a security problem.

- Works up to 150m away
- 4 position distance equaliser for optimum signal
- Supports resolutions up to 1024x768
- Use standard CAT5/5e/6 unshielded cable as the data link
- Available with or without mono audio facility
- Standard 15way Hi-D male input and 2x 15way Hi-D female outputs
- The audio version uses 3.5mm sockets for input and outputs
- RJ45 sockets for the CAT5 cable
- Powered by ac adaptors
- No operating system required
- Dimensions (HxWxD): 20x104x70mm

Contents: Tx, Rx, 2x ac adaptors and user guide
