NIMH RECHARGEABLE BATTERIES PACK/2 AA2

Product Code: 75067729

Description: Many of today's high-drain devices like digital cameras require replacing your batteries more often than you're used to - why not choose Duracell NiMH batteries? The powerful 2450 mAh AA is ideally suited for powering digital cameras, and can be charged in as little as half an hour using the Duracell 30-Minute Charger. Also available are AAA batteries - useful in small electronic devices such as PDA's and hand-held games. Duracell rechargeable NiMH batteries and chargers offer you the quality and dependability you've come to trust from Duracell, in a long-lasting, cost-effective power option. Duracell offers NiMH batteries in AA and AAA sizes, plus a range of chargers designed to provide you the charge time you need
