

Wireless Hand Held Microphones

Evolution G2 Series

The Evolution G2 Series from Sennheiser is a modular, professional UHF microphone system. Complete flexibility provides many options from a single portable system to multi-channel applications.

EW135 G2 This system is ideal for vocal applications. The SKM 135 G2 hand-held transmitter as well as the EM 100 G2 rack-mount receiver feature nine frequency banks with four directly accessible presets each.

EW145 G2 The ew 145 G2 has been designed for work on stage. The low feedback SKM 145 G2 handheld transmitter as well as the EM 100 G2 rack-mount receiver feature nine frequency banks with four directly accessible presets each.

EW165 G2 The excellent feedback rejection and wide dynamic range of the SKM 165 (condenser, super-cardioid) make this system ideal for live stage work. The SKM 165 G2 hand-held transmitter with an electret condenser capsule as well as the EM 100 G2 rack-mount receiver feature nine frequency banks each with four directly accessible presets.

- 1440 tunable UHF frequencies for interference-free reception
- Absolutely reliable transmission and extended range due to high RF output power
