

TURCK – OMRON IA SENSOR CROSS REFERENCE GUIDE

While the Omron IA sensors given in this cross-reference are considered recommended equivalents, dimensions and/or characteristics/functions may vary slightly from those of comparable competitive sensors. The final determination as to the suitability of an Omron equivalent for the buyer's purpose shall be the responsibility of the buyer alone. All recommendations and technical advice of Omron are in the nature of opinions and do not create warranties, either expressed or implied, with respect to the compatibility of a sensor for the application to which it may be put.

Although due and responsible care has been exercised in compiling this cross-reference, clerical and typographical errors are possible and are subject to correction.

Definition of terms:

Form - Physical shape, construction, dimensions

Function - Performance, operation, sensing distance

Direct - Exact match

Close - Similar, minor differences

Alternate - Different solution

N/A - Non-applicable
