

Sealed Micro-Quadlock-System (MQS) Connectors . . . For Wire To Device Applications (Continued)

Plug Housings

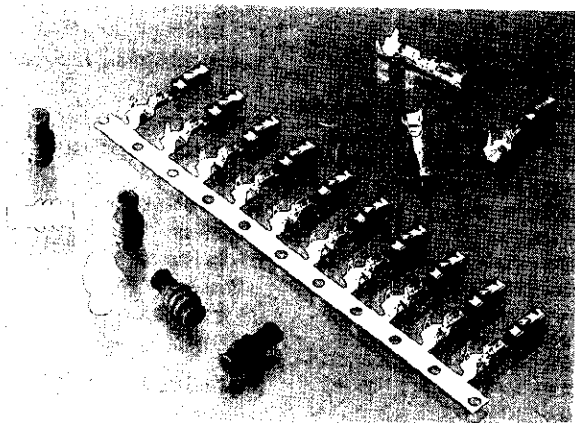

Connector housings are made from PBT material with a silicon rubber interface seal

Positions	Keying Option	Housing Color	Part Number
2	A	Black	1-967644-1
	B	Gray	2-967644-1
3	A	Black	1-967642-1
	B	Gray	2-967642-1
4	A	Black	1-967640-1
	B	Gray	2-967640-1
6	A	Black	1-967616-1
	B	Gray	2-967616-1
8	A or B	See Note	
12	A or B	See Note	

Note: Part numbers for the 8 and 12 position versions are not yet released, contact AMP Incorporated for current product status.

Receptacle Contacts and Wire Seals

Contacts available in strip form only. Wire seals and cavity plugs are made from silicon rubber.

Wire Range mm ² / AWG	Insulation Diameter mm/Inches	Wire Seal Part Number	Contact Finish	Contact Part Number
0.2-0.5 [#24-20]	0.9-1.4 [.035-.055]	967067-2	Pre-Tin	962885-X
	1.4-1.9 [.055-.075]	967067-1	Gold	962885-X
0.75 [#18]	1.4-1.9 [.055-.075]	967067-1	Pre-Tin	965906-X

Use cavity plug part number 967056-1 to seal empty circuit cavities.

X = -1 for tin
X = -5 for gold

Note: All terminal part numbers are located on one table drawing, please order 116-18000-200 when ordering customer drawings.
