

WizardPen 4x3

WizardPen 4x3 is a natural pen device for easy drawing, painting, sketching and signing documents or handwriting notes on the Internet or in any application program. Forget about cord tangles, dust accumulation, or difficult drawings, with the cordless 512-level pressure sensitive pen, you can get all kinds of shapes and thickness with just a press of the pen.

Plus, **WizardPen 4x3** provides other great features such as 4064 LPI high resolution; the customized pen button for fast browsing up/down, left/right on the Internet and in Windows documents; and fantastic handwritten annotation software.

Features:

- ➡ Tip button : Left click works like the left button of the mouse
- ➡ The button on the pen works like the right button of the mouse
- ➡ Supports multi-platform, compatible with most professional software
- ➡ Can be installed parallel with other mouse or pointing devices
- ➡ 512-level pressure sensitive cordless pen
