

60W Soldering Station

Description:

This compact soldering station features a digital display and low profile casing. Its compact design will fit on any tool bench and is small enough for convenient storage. The efficient, thermostat-controlled, 60-watt output of this unit provides almost instant working temperatures with outstanding precision.

Features:

- High contrast LCD
- Lead free and ROHS compliant
- Temperature range : 392°F to 896°F
- Temperature lockout
- Three programmable presets
- F or C selectable readout
- ESD safe
- Lightweight iron handle
- Long-life ceramic heating element (Replacement iron assembly: 21-11435)
- Includes one tip and soldering stand with cleaning sponge
