

## PC TV NanoStick DVB-T 73E

### Product Overview

PCTV nanoStick is a gem of a USB DVB-T tuner. It picks up digital TV even if the signal is weak, thanks to its ultra-sensitive reception technology. The incredible nano-sized design makes it the perfect match for today's thin laptops and compact desktop PCs. Our included easy to use TVCenter 6 software lets you watch, timeshift and record TV. You can enjoy TV in full-screen mode or in a scaleable window while using other applications. PCTV nanoStick supports terrestrial HDTV services<sup>1</sup>. PCTV nanoStick comes with a mini remote and antenna, and is Certified for Windows Vista and Windows 7.

### Key Features

- Ultra-sensitive digital terrestrial TV reception
- Watch digital TV in full-screen or scaleable-window mode.
- Pause and rewind live TV with timeshifting.
- Record what you're watching or schedule recordings for later.
- Record to your hard drive in MPEG-1 or MPEG-2.
- Compact design with built-in protective flip-cap doesn't block other USB ports.
- USB powered. Low power consumption saves notebook battery power.
- Integrated Electronic Program Guide and ultra-fast Teletext (where Teletext signal is available).
- Mini remote and antenna included
- Compatible with Windows Media Center (Media Center remote control available separately)
- Free trial software included! DistanTV: Stream live TV from your PC to any other PC on your home network
