Tablet Solution

Application
The Tablet Enclosure offering is a solution to house and support tablet devices for user interface. This offering’s modern industrial and ruggedized design is a secure and reliable protection solution for an iPad® device. The single modular unit enables easy transportation and flexible application, while the enclosure’s secure bracket and Kensington® lock safeguards your iPad device. For a mobile application, the Tablet Carrying Case is a lightweight solution designed to protect your iPad device from extreme conditions such as dust, rain, shock, vibration, and other harsh environmental factors. iPad is a registered trademark of Apple Inc. Kensington is a registered trademark of ACCO brands.

Features
Tablet Enclosure:
• Quick-release latch allows Tablet Enclosure to be easily removed from the Tablet Stand
• Can be secured to Tablet Stand with purchase of Kensington lock accessory
• Rugged, metal frame withstands harsh factory conditions
• Fits iPad 2 device and iPad 3 device

Tablet Stand:
• Collapses into five pieces with a tool-less assembly for ease of use and mobility
• Freestanding, bolted to the floor or assembled with Caster kit
• Versatile with four height options, as a floor-mount or wall-mount
• Ergonomic positioning of iPad device helps ensure operator comfort

Tablet Carrying Case:
• Ruggedized frame that protects against drops
• Protective display shield that deflects water
• Multi-position workstand allows Tablet Carrying Case to be upright stationed
• Fits iPad 2 device and iPad 3 device

Finish
Tablet Stand is zinc plated. Tablet Stand, Tablet Enclosure, and Tablet Wall/Table Mount are RAL 9005 black powder paint.

Accessories
