Dear Mitutoyo Distributor,

This letter is to inform you of a change to one of our Mechanical (Inch) Tool Kits. The product code for the 64PKA072 has been changed to 64PKA080. The change in product code is due to a change in the micrometer included in the kit. This set will now contain a 103-177 micrometer in place of the discontinued 103-105. The 103-177 has the same range, resolution and ratchet stop as the 103-105, but the enamel frame is different and is not tapered.

If you would like further information or assistance regarding this change, please contact your Mitutoyo sales representative or the Mitutoyo sales office in your area.

Product: Tool Kit
Product Order Numbers: See Product Data table below
List Price: See Product Data table below
Discount Classification: A
Literature: Products will be added to the next Mitutoyo general catalog
