## Item # T-91-SC36, Treadlite II Foot Switch

---

MOMENTARY

### Treadlite II Foot Switch

The handsome steel housing is painting black with nonskid base pad and foot treadle pad. The low profile and light pressure required to operate reduces operator fatigue. The maintained contact version incorporates a positive over center rocker type action.

The TWIN T-91-SC48 consists of two single models mounted on a single cast aluminum base with a divider bar between pedals which helps prevent accidental operation of both switches at one time.
