
Item # 26700-312, 3D Stand

3D Stand

Positioning the digital microscope for precise analysis is simple with the 3D Stand's single tension adjustment knob. The 3D stand provides a great range of motion to set up and quickly change the inspection areas around the specimen. The articulating arm and base are made from high-quality anodized aluminum.

Features

- Base Dimension: 110mm x 120mm
- Vertical Post: 150mm
- Horizontal Post: 180mm
- Working Distance: max ~240mm
