

General Features

Properties of the TOCON_ABC10

- Broadband pre-amplified SiC UV detector in TO5 housing with attenuator
- 7 W/cm² peak radiation results a voltage of approx. 2 V
- RoHS compliant
- Applications: UV hardening control and other very high radiation sources

The TOCON pre-amplified UV photodetectors

The TOCON devices are using modern hybride technology to cancel unwanted signal disturbances caused by moisture or electromagnetic radiation. The stable 0...5V output voltage can be directly connected to a SPC controller or a voltage multimeter. No external amplifier is needed.
