

POWEREX[®] Product Change Notification

POW-R-BLOK[™] SCR and Diode Modules **# : 2012-004 Rev.: 00**

Date: 2012 / NOV / 12

Author: Ron Yurko

Subject of Change:

Terminal hardware for LD, LS, and ND style SCR and diode modules will no longer be included as a standard item that is supplied with the modules.

Description of Change:

The terminal hardware for the LD, LS, and ND style will no longer be included as a standard item as a standard item that is supplied with the modules. Customers that will still require the previously supplied terminal hardware may purchase this as an accessory.

| Module | Hardware Kit | Description |
|--------|--------------|---|
| ND | 87 | Three M8 x 1.25 screws 16 mm in length with captive lock washer and flat washer |
| NS | 86 | Two M8 x 1.25 screws 16 mm in length with captive lock washer and flat washer |
| LD | 50 | Three M10 x 1.5 screws 20 mm in length and three 10mm lock washers |
| LS | 49 | Two M10 x 1.5 screws 20 mm in length and two 10mm lock washers |

Please contact your Powerex manufacturer's representative or authorized Powerex distributor to negotiate any requirements for terminal hardware for the ND, LD, or LS modules.

Reason for Change:

Due to the number of customers that have indicated that they prefer to purchase and use their own terminal hardware that differs from the previously supplied standard hardware, Powerex is adopting the industry standard practice of supplying the terminal hardware as an accessory item to avoid sending unnecessary hardware.
