

Features:

- This is a fast acting multi-purpose spray adhesive
- Formulated to provide permanent bonds between a wide variety of materials

Specifications:

Adhesive Type	: Adhesive
Dispensing Method	: Can
Chemical Colour	: Clear
Volume	: 500ml
Adhesive Applications	: Bonding / General Purpose

Applications:

Suitable for bonding a wide variety of different materials together including carpet, felt, cloth, slate, wood, metal, plastic, rubber, paper and cardboard. It has been formulated without the use of chlorinated solvents and 'tacks' in approximately 30 - 60 seconds to provide a quick solution to bonding.

Directions:

Apply a light, fine even coating to both surfaces to be bonded from a distance of 25 - 30cm. On porous surfaces apply two coats of adhesive before bonding. Wait until the adhesive is tack-dry and bond the surfaces together using firm pressure.

Note:

May affect certain plastics. Not suitable for use on PVC. Always test a small, inconspicuous area before general use. To prevent blockages, invert the can after use and spray to clear the nozzle.

Technical Information

Appearance	Clear, amber liquid
Odour	Solvent
SG at 25°C	0.66
Pressure at 25°C	4 Bar
Discharge rate	1.2g/second
Polymer type	Styrene butadiene rubber
Tack time	Approximately 30 - 60 seconds
Bonding time	Maximum adhesion in 12/24 hours
Temperature range	Up to 50°C (dried film)
Flammability	Classified as extremely flammable under CHIP regulations

Storage:

The product may be stored at normal temperatures and has a shelf life of not less than 36 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flames.

Part Number Table

Description	Part Number
Adhesive Spray, 500ml, Aerosol	PPC105
