Overview
888D and 889D hazardous location horns are diode-polarized, heavy duty, high decibel vibrating horns intended for use in life safety systems in hazardous (classified) locations. These horns may be mounted to any solid surface using two bolts (by others).

Each unit is supplied with a sealing fitting for ¾-inch -14 National Pipe Taper (NPT) nipple, and wire leads for the electrical connection to the life safety system notification appliance circuit.

Standard Features
- Diode polarized
- Corrosion resistant heat flowed epoxy finish – red
- Low current draw

Application
888D and 889D hazardous location horns are UL-listed for installation in the following classified locations:
- Class I groups B, C and D
- Class II groups E, F and G
- Class III hazardous locations, for Div. 1 and 2
Mounting
