Machine-to-Machine (M2M) PICtail Daughter Board

Part Number: AC320011

M2M PICtail™ Daughter Board
(Part # AC320011)

Microchip's Machine-to-Machine (M2M) PICtail Daughter Board (part # AC320011) based upon u-blox GPS and GSM/GPRS modules makes it easy to create low-cost M2M applications with location-awareness capabilities. The daughter board can be interfaced with Microchip's Multimedia Expansion Board and a PIC32 starter kit to provide developers with a turn-key platform to get started with apps such as texting, email and GPS.

Feature	Benefit
GSM Communications	Text messaging and cellular phone connection
GPRS Communications	Packet data communications – images, location information, etc
GPS	Satellite Positioning for easy tracking and Location Based Services

Note*: The demo code is build to work only with PIC32 USB Starter Kit II and PIC32 Ethernet Starter Kit*
