

Coax Cable

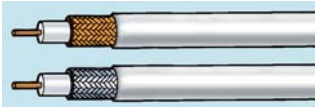

Wire and Cable

Section 1

Plenum Rated Coax Cable

Belden New Generation plenum coaxial cable. UL type CMP approval. Foam dielectric and natural Flamarrrest jacket. 649948 is Siamese construction, 1 RG-59/U with 2/18AWG. **Applications:** CCTV and CATV (CATV 633938 and 6339Q8 only). Key: BC=Bare Copper, CCS= Copper covered steel, FB= Foil plus braid.

Order #	Length	Ctr./ RG/U Shield	(ea.)	(2-4)	(5-up)

Belden Coaxial Cable

Belden New Generation coaxial cable. UL type CM approval. Foam dielectric and black PVC jacket. 549945 is Siamese construction, 1 RG-59/U with 2/18 AWG. 573945 is miniature RG-59/U. **Applications:** CCTV and CATV (CATV 5339B5 and 5339Q5 only). Key: BC=Bare Copper, CCS= Copper covered steel, FB= Foil plus braid.

RG-6 Cable

RG-6/U

RG-6/U coaxial cable with 18AWG copper covered steel, mylar foil and 60% aluminum braid providing 100% shield coverage. Sweep tested to 2250MHz. Polyethylene dielectric and PVC jacket. OD .275" nominal. **Impedance:** 75ohm nominal. Sequential feet marking every two feet.

Order #	Length	(ea.)	(2-4)	(5-up)
Black				
24-5525	100'	\$9.95	\$7.51	\$6.74
24-5530	500'	39.95	33.64	30.58

24-5655	1000'	143.00	117.42	104.38

RG-6/U CL-2 Rated Coax Cable

RG-6/U type coax cable. 18AWG solid bare copper center conductor. Mylar aluminum foil shield plus 40% aluminum braid provides 100% shield. Foam dielectric and PVC jacket. Outside diameter .270" nominal. **Impedance** 75ohm nominal. Perfect cable for high frequency cable systems, satellite television and DBS. CL2 rated for in wall use.

Order #	Length	(ea.)	(2-4)	(5-up)
24-1765	100'	\$17.95	\$15.75	\$14.66
24-1770	500'	79.95	72.56	67.08
24-1775	1000'	168.00	152.16	139.48

Belden RG-6/U

18AWG solid bare copper covered steel, Duobond II plus 60% aluminum braid, 100% shield coverage. Polyethylene dielectric and PVC jacket. OD .270" nominal. **Impedance** 75ohm nominal. Mfr. #9116.

Order #	Color	Length	(ea.)	(2-4)	(5-up)
24-5120	Black	1000'	\$126.00	\$116.30	\$108.28

24-5130	White	1000'	126.00	116.30	108.28

Belden RG-6/U Coaxial Cable

Brilliance RG-6/U coaxial cable. 18AWG solid bare copper center, foam dielectric, Duofoil plus 61% tinned copper braid, black PVC jacket. Mfr. #9248.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5140	1000'	\$517.00	\$478.34	\$445.35
24-5145	500'	287.00	263.58	243.68

Belden Precision RG-6/U

18AWG solid bare copper center conductor, foam fluorinated ethylene propylene insulation, foil tape plus 65% tinned copper braid provide 100% shield coverage. Natural flamarrest jacket. 75ohm.

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)
24-7680	82248	1000'	\$1756.00	\$1625.75	\$1513.63

Belden Precision RG-6/U

Belden precision video cables are used in critical analog video circuits and high quality applications such as live broadcast in network studios and pre-production or post-production facilities. Precision video cables are also recommended for the latest digital video applications. 18AWG solid bare copper conductor, foam dielectric, Duofoil shield with 95% tinned copper braid. Black PVC jacket. Mfr. #1694A.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5180	1000'	\$604.00	\$559.08	\$520.52
24-5185	500'	336.00	308.07	284.82

Belden RG-6/U Precision Video Cable

Belden precision video cables are used in critical analog video circuits and high quality applications such as live broadcast in network studios and pre-or post-production facilities. They should be used anywhere superior signal integrity is required. 18AWG solid bare copper center conductor, foam polyethylene insulation, foil shield with 95% tinned copper braid provides 100% shield coverage, Black flamarrest jacket. 75ohm. Brilliance precision video coax for analog and digital SDI/HDTV applications.

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)

24-5595	1000'	192.00	163.88	148.99

RG-6/U Quad Shield Coax Cable

18AWG copper clad steel weld. Mylar aluminum foil plus 46% aluminum braid coverage plus mylar foil and 43% aluminum braid providing exceptional levels of shielding. Foam polyethylene dielectric and PVC jacket. Outside diameter .275" nominal. **Impedance** 75ohm nominal. UL listed NEC type CL2/CATV.

Order #	Length	(ea.)	(2-4)	(5-up)

24-5565	1000'	164.00	134.83	129.17

Dual RG/6U Quad Shield Coax Cable

Dual RG/6U quad shield coax cable for use in satellite TV and other applications requiring high levels of cable shielding. 18AWG copper clad steel weld. Mylar aluminum foil plus 40% aluminum braid coverage plus mylar foil and 40% aluminum braid providing exceptional levels of shielding. Foam polyethylene dielectric and PVC jacket. Outside diameter .295" nominal. Impedance 75ohm nominal. UL rating: CL2 and CATV.

Order #	Length	(ea.)	(2-4)	(5-up)
24-2015	100'	\$41.95	\$37.67	\$35.07

RG-6 Cable

WEST PENN WIRE/CDT Aqua Seal RG-6/U

Aqua Seal cable has a unique wrap between the jacket and the braid that stops moisture from getting into the cable, changing the characteristics of the cable or destroying the dielectric. RG-6/U type coax cable. 18AWG solid bare copper. Bifoil with 35% aluminum braid provides 100% shield. Foam polyethylene dielectric and sunlight resistant PVC jacket. Outside diameter .275" nominal. Impedance: 75ohm nominal. CL2 and CM rated. This cable is perfectly suited for CATV/MATV and DBS installations. Mfr. #AQC841.

Order #	Length	(ea.)	(2-4)	(5-up)
24-4220	500'	\$110.00	\$103.83	\$100.63
24-4225	1000'	219.00	207.63	201.25

WEST PENN WIRE/CDT RG-6/U Flooded Burial

Flooding agent between the jacket and the braided shield prevents moisture from migrating into the cable from bad connections or cable nicks. RG-6/U type coax cable. 18AWG copper covered steel. Bonded Bifoil with 61% aluminum braid provides 100% shield. Foam polyethylene dielectric and sunlight resistant polyethylene jacket. Outside diameter .275" nominal. Impedance 75ohm nominal. This cable is perfectly suited for CATV/MATV and DBS installations when cable needs to be buried. 1000'. Mfr. #6140.

Order #	(ea.)	(2-4)	(5-up)
24-4235	\$144.00	\$136.21	\$132.02

RG-59 Cable

White Jacket RG-59/U Copper Braid

•22 gauge solid copper-covered steel weld •Foam dielectric •80% copper braid shield •.240" (O.D.) nominal •75ohm nominal impedance

Order #	Length	(ea.)	(2-4)	(5-up)
24-1110	100'	\$24.95	\$22.13	\$20.61
24-1485	500'	111.00	101.21	93.57

Belden RG-59/U Coaxial Cable

RG-59/U coaxial cable. 20AWG bare copper covered steel, Duofoil plus 40% aluminum braid, foam dielectric, black PVC Jacket. Mfr. #9275.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5160	1000'	\$98.95	\$90.38	\$84.14
24-5165	500'	55.95	49.80	46.04

Belden RG-59/U

Special application, TV camera cables and CCTV cables, brilliance, RG-59/U Type, 22AWG, stranded (7x30) bare copper, foam polyethylene, bare copper braid, 95% shield coverage, black PVC jacket, for CCTV applications. Mfr. #9259.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5190	1000'	\$483.00	\$447.04	\$416.21
24-5195	500'	269.00	246.33	227.74

Belden RG-59/U Precision Video Cable

Belden precision video cables are used in critical analog video circuits and high quality applications such as live broadcast in network studios and pre-or post-production facilities. They should be used anywhere superior signal integrity is required. 20AWG solid bare copper center conductor, foam fluorinated ethylene propylene insulation, foil shield with 95% tinned copper braid providing 100% shield coverage. Black flamarrest jacket. 75ohm.

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)
24-7575	1506A	1000'	\$1684.00	\$1558.71	\$1451.21
24-7580	1506A	500'	936.00	858.88	794.06

Belden RG-59/U Digital Coax

Belden precision video cables are used in critical analog video circuits and high quality applications such as live broadcast in network studios and pre-or post-production facilities. They should be used anywhere superior signal integrity is required. Precision video cables are also recommended for the latest digital video applications. 23AWG solid bare copper center conductor, foam polyethylene insulation, aluminum foil shield plus 95% tinned copper braid provide 100% shield coverage. Black PVC jacket. 75ohm miniature precision video cable.

•Limited quantities

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)

RG-59 Cable

WEST PENN WIRE/CDT Plenecon® Plenum RG-59/U

RG-59/U plenum type coax cable. 20AWG solid bare copper. 95% bare copper braid shield. Foam Teflon dielectric with tape barrier and flexible plenum jacket. Outside diameter .207" nominal. Impedance 75ohm nominal. This cable is perfectly suited for CATV and CCTV installations. Mfr. #25815.

Order #	Length	(ea.)	(2-4)	(5-up)
24-4245	500'	\$254.00	\$241.87	\$234.43
24-4250	1000'	508.00	483.73	468.85

WEST PENN WIRE/CDT RG-59/U Siamese Cable

RG-59/U type Siamese cable. 20AWG solid bare copper. Bare copper braid provides 95% shield. Polyethylene foam dielectric and PVC jacket. Outside diameter .232" nominal. Impedance 75ohm nominal. 1-pair 18AWG unshielded cable. This cable is perfectly suited for CCTV installations. Mfr. #A2815.

Order #	Length	(ea.)	(2-4)	(5-up)
24-4265	500'	\$132.00	\$124.94	\$121.09
24-4270	1000'	263.00	249.86	242.17

WEST PENN WIRE/CDT RG-59/U Plenum Siamese Cable

RG-59/U type Siamese cable. 20AWG solid bare copper. Bare copper braid provides 95% shield foam Teflon dielectric with tape barrier and copolymer jacket. Outside diameter .207" nominal. Impedance 75ohm nominal. 1-pair 18AWG unshielded cable. This cable is perfectly suited for CCTV installations. Length: 500'. Mfr. #252815.

Order #	(ea.)	(2-4)	(5-up)
24-4275	\$303.00	\$288.10	\$279.23

WEST PENN WIRE/CDT 75ohm S-VHS Cable

Dual cable construction. 25AWG solid bare copper. 95% bare copper braid shield. Foam polyethylene dielectric and PVC jacket. Outside diameter .146" nominal. Impedance 75ohm nominal. CL2 and CM rated. This cable is perfectly suited for custom home theater installations. 1000'. Mfr. #2825-1000.

Order #	(ea.)	(2-4)	(5-up)
24-4305	\$159.00		

WEST PENN WIRE/CDT Minimax Miniature Coax

25AWG solid bare copper. 95% bare copper braid shield. Foam polyethylene dielectric and PVC jacket. Outside diameter .146" nominal. Impedance 75ohm nominal. CL2 and CM rated. This cable is perfectly suited for CCTV installations. Mfr. #825.

Order #	Length	(ea.)	(2-4)	(5-up)
24-4285	500'	\$76.95	\$72.03	\$69.82

24-5520	1000'	239.00	216.30	200.24

RG-59/U Plus 18/2

Dual coax cable perfect for installing cable television systems and closed circuit television systems. Constructed with one RG-59/U cable molded to a two conductor 18AWG cable.

Order #	Length	(ea.)	(2-4)	(5-up)
24-2650	100'	\$39.95	\$35.76	\$33.30
24-2655	500'	226.00	207.13	191.50
24-2660	1000'	505.00	458.55	420.34

RG-59/U Siamese Cable

RG-59/U coaxial cable with 20AWG copper covered steel, mylar foil and 60% aluminum braid providing 100% shield coverage. Sweep tested to 2250MHz. Polyethylene dielectric and PVC jacket. OD .250" nominal. Impedance: 75ohm nominal. 18AWG bare copper stranded wire, PVC jacket, color coded for easy polarity identification. Sequential feet marking every two feet.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5495	100'	\$28.95	\$24.70	\$22.61
24-5500	500'	120.00	113.37	104.42
24-5505	1000'	229.00	207.29	191.89

Belden Precision RG-59/U Coaxial Cable

Belden precision video cables are used in critical analog video circuits and high quality applications such as live broadcast in network studios and pre- or post-production facilities. Precision video cables are also recommended for the latest digital video applications. Brilliance, 75ohm precision video cables, double braided RG-59/U type, 20AWG, solid bare copper, polyethylene, tinned copper double braid, 98% shield coverage, black polyethylene jacket. Mfr. #8281.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5170	1000'	\$1111.00	\$1028.71	\$957.76
24-5175	500'	618.00	566.84	524.06

Wire and Cable

Section 1

Coax Cable

Belden

RG-11/U Coax Cable

14AWG solid bare copper center conductor, foam polyethylene insulation, foil tape plus 60% tinned copper braid provide 100% shield coverage. Black PVC jacket suitable for indoor and outdoor use. 75ohm.

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)
24-7635	9292	1000'	\$946.00	\$875.38	\$815.00

RG-8/U Cable

• 13AWG (7 strands x 21 gauge) center conductor
• Black PVC insulation • Bare copper braid, 70% shield • Foam dielectric • .405" (O.D.) nominal • 60ohm nominal impedance • 22pF/ft nominal capacitance • Attenuation/100' at 100MHz 2.0dB, 200MHz 3.0dB, 400MHz 4.5dB, 900MHz 6.8dB

Order #	Length	(ea.)	(2-4)	(5-up)
24-1565	50'	\$56.95	\$50.21	\$46.06
24-1570	100'	66.95	60.21	56.06
24-1575	500'	371.00	340.27	314.59

Belden

RG8/U

RF400 wireless 50ohm coax cable. 9AWG, solid copper clad aluminum conductors, foam polyethylene insulation, black polyethylene jacket, Duofoil tape plus 95% tinned copper braid shields. Use: Suitable for indoor, outdoor, aerial and direct burial applications. Mfr. #7810A.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5235	500'	\$746.00	\$684.29	\$632.65

Belden

RG-62A/U

93ohm, RG-62A/U Type, 22AWG, solid bare copper covered steel, semi-solid polyethylene, bare copper braid, 95% shield coverage, black PVC jacket. Length: 500'. Mfr. #9269.

Order #	(ea.)	(2-4)	(5-up)
24-5215	\$215.00	\$197.05	\$182.17

Mini Coax Cable

WEST PENN WIRE/CDT Minimax Miniature Coax

25AWG solid bare copper. 95% bare copper braid shield. Foam polyethylene dielectric and PVC jacket. Outside diameter .146" nominal. Impedance 75ohm nominal. CL2 and CM rated. This cable is perfectly suited for CCTV installations. Mfr. #825.

Order #	Length	(ea.)	(2-4)	(5-up)
24-4285	500'	\$76.95	\$72.03	\$69.82
24-4290	1000'	152.00	144.06	139.63

WEST PENN WIRE/CDT Minimax Miniature Siamese Coax

25AWG solid bare copper. 95% bare copper braid shield. Foam polyethylene dielectric and PVC jacket. Outside diameter .146" nominal. Impedance 75ohm nominal. CL2 and CM rated. 1-pair 22AWG. This cable is perfectly suited for CCTV installations. Mfr. #45825.

Order #	Length	(ea.)	(2-4)	(5-up)

In-Wall Speaker Wire

High quality two or four conductor

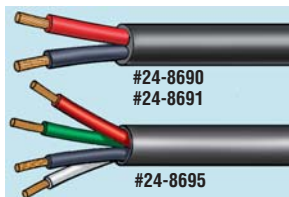

wire for various audio applications. High flexibility allows for ease of installation through walls and around obstacles. Ideal for in-wall speakers and intercom systems. UL approved for in-wall use. Individual conductors in a common jacket for ease of installation. Color coded for quick identification.

Order #	Gauge	Length	(ea.)	(2-4)	(5-up)

Direct Bury Speaker Cable

Designed for use with our outdoor landscaping speakers, this direct bury cable may also be used for other low voltage applications including alarm control or 12V landscape lighting. Rugged polyethylene outer sheath is UV resistant and will withstand harsh weather environments. CL2 rating makes this suitable for in-wall use in residential applications. 14AWG conductors are 41 strand copper, meeting the most stringent sonic and flexibility requirements. Inner conductors are color coded red, black (two conductor) and red, black, green and white (four conductor). Shipped on wooden spools.

Order #	Conductors	Length	Weight	(ea.)	(2-4)	(5-up)

Wire and Cable

Section 1

Superior Quality Microphone Cable

- 2 conductor with braided shield • PVC jacket
- For use with low impedance microphones • 22 gauge conductors
- Nominal capacitance 31pF
- .235" (O.D.) • Made in USA

Order #	Length	(ea.)	(2-4)	(5-up)
24-441	100'	\$44.95	\$39.86	\$37.11
24-440	500'	194.00	177.45	164.06

Belden Microphone Cable

Brilliance, 99.95% pure high conductivity copper, two conductor low impedance cables. 20AWG, two conductor stranded (26 x 34) tinned copper conductors, copper braid shield. Black rubber jacket for greater abrasion and impact resistance and extra limpness so the cable will lie flat on stage or on studio floors. Mfr. #8412.

Order #	Length	(ea.)	(2-4)	(5-up)
24-5095	500'	\$658.00	\$603.68	\$558.12

Belden Paired Audio and Control Cable

One twisted pair, 22AWG stranded, tinned copper conductors. Polypropylene insulation, foil tape with 22AWG stranded, tinned copper drain wire providing 100% shield coverage. Gray PVC jacket.

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)
24-7605	9451	1000'	\$213.00	\$197.23	\$183.63
24-7610	9451	500'	120.00	110.00	101.70

Belden Shielded Plenum Audio, Control, and Instrumentation

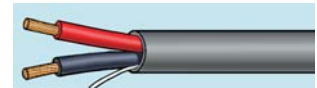

Paired 22AWG stranded, tinned copper conductors with foil tape and 22AWG drain wire to provide 100% shield coverage. FEP insulation and natural Flamarrrest jacket.

Order #	Mfr. #	Length	(ea.)	(2-4)	(5-up)
24-7445	82761	1000'	\$582.00	\$538.34	\$501.21
24-7450	82761	500'	323.00	296.64	274.25

Belden Paired Audio Cable

1 twisted pair stranded (7 x 30) 22AWG tinned copper conductors. Polypropylene insulation, Beldfoil shield with 22AWG tinned copper drain wire providing 100% shield. PVC jacket is riser rated. 1000'. Mfr. #8451.

Order #	(ea.)	(2-4)	(5-up)
24-7175	\$209.00	\$193.52	\$180.18

Rotator Cable

Three conductor cable for use with many popular antenna rotators. Outer jacket 0.162" black PVC with 0.020" wall. Three 20AWG conductors color coded black, white and red.

Order #	Length	(ea.)	(2-4)	(5-up)
24-3080	100'	\$25.95	\$22.34	\$20.80
24-3085	500'	111.00	101.94	94.25
24-3090	1000'	238.00	215.80	197.82

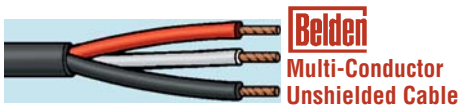

Section 1

Belden UL Unshielded Riser Cable

Belden New Generation riser fire alarm cable. UL, NEC approvals. Bare copper solid conductors. Red PVC jacket with ripcord. **Applications:** Fire protective, alarm, signal, monitor/detection. Mfr. 5120UL.

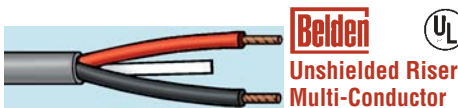

Order #	Length	Cond./AWG	(ea.)	(2-4)	(5-up)

Belden Category 6 Mediatwist® UTP Cable

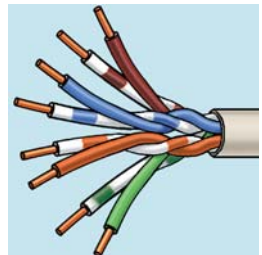

Belden's 1000' MediaTwist® Cat6 UTP cable is a unique cable design delivering the ultimate in unshielded twisted pair performance. Media Twist features 24AWG solid bare copper conductors, and four twisted pairs bonded in a PVC jacket to effectively separate and isolate each pair minimizing NEXT interference. Jacket sequentially marked at two foot intervals, and nominal O.D. is 0.365. Mfr. #1872A.

Order #	(ea.)	(2-4)	(5-up)
24-7170	\$258.70	\$245.70	\$232.70

Category 5e Bulk Twisted Pair Cable

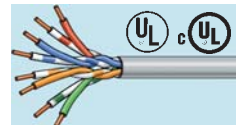

Unshielded twisted pair cable is commonly used in high speed data applications and is now a standard for residential telecom wiring.

Order #	Conductors	Length	(ea.)	(2-4)	(5-up)
24-5915	4 pair	100'	\$13.95	\$10.84	\$9.98
24-5920	4 pair	500'	42.95	40.45	38.23
24-5925	4 pair	1000'	75.95	71.88	69.07

Paired Category 5e UTP Cable

Twisted pair wire is most commonly used in high speed signal applications. These include computer, telephone, video and security. 24AWG solid, category 5e. PVC jacket, F+4, 75°C maximum rated, UL CMR and CSA listed.

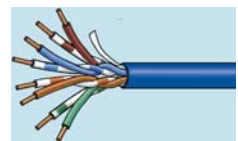

Order #	Length	(ea.)	(2-up)
24-1740	500'	\$59.95	\$53.96
24-1745	1000'	119.00	107.10

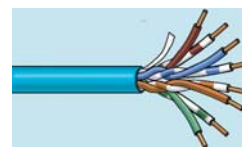

Paired Category 5e UTP Cable

Unshielded, four pair, 24AWG solid bare copper conductors. 1585A: Blue Flammarrest® Plenum jacket with nylon ripcord. 1583A: Blue PVC jacket with nylon ripcord. 1000'.

Order #	Mfr. #	(ea.)	(2-4)	(5-up)

"Amp King" Primary Wire

- Multi-stranded single conductor primary wire
- 99.9% pure electrolytic copper, cabled in a ropelay design for maximum flexibility and conductivity
- Made of a flame retardant compound that is highly resistant to oil, water, alkalies, ozone, grease and diesel fumes
- High gloss finish
- Surface printed with gauge, description and one-foot markers
- Made in USA

10 Gauge • 413 strand ropelay construction

Order #	Length	Color	(ea.)	(2-4)	(5-up)

Automotive "Zip" Cord

Multi-stranded soft bare electronic copper conductors. Insulated with 80° "GPT" automotive grade VW-1 flame retardant PVC. One conductor is all red and one conductor is all black (for polarity) in "zip cord" construction. Useful as "CB" power cord, stereo, alarm and other general purpose applications.

General Purpose Wire

Belden PVC Insulated Hook-Up Wire

Hook-up wire with tinned copper and PVC insulation. PVC is flame and ozone resistant, as well as being inert to most chemicals, oils and solvents. .016" insulation thickness. 100' rolls.

24-550	Stranded	Black	2.43	2.03	1.89

Test Lead Wire

Rubber/PVC test lead wire for making custom probe leads or clip leads. 18 gauge stranded conductor (65 gauge x 36 strands). Insulation thickness .045, outside diameter .140. Working voltage 5,000V. Construction resists oils, acids and solvents. UL listed. 50' length.

Order #	Description	(ea.)	(2-4)	(5-up)
24-1795	50' 18 gauge, red	\$11.80	\$11.47	\$10.80
24-1800	50' 18 gauge, black	14.95	14.67	13.80

Standard Lamp Wire

• 2 conductor: One bare copper, one tinned copper

• 18 gauge standard • 1 conductor ribbed for polarity identification • 300V suggested working voltage • Brown jacket

• SPT-1 • Made in USA

Order #	Length	(ea.)	(2-4)	(5-up)

SLP Series "F" Type Miniature Coaxial Cables

The Stellar Labs SLP Series "F" type RF Coaxial Cables are ideal for transporting cable TV, DSS or 75ohm RF antenna signals to your TV, or monitor. The flexible, UL listed wire features a thin 4.00mm outer diameter making it ideal in tight spots and patch panel environments. The screw-lock "F" type connector features a gold-plated, corrosion free construction ensuring long-lasting, securely fastened interconnects. Limited lifetime warranty.

Order #	Length	(1-10)	(11-50)	(51-up)
24-8930	1.5'	\$6.39	\$5.70	\$5.34

24-8936	50'	16.95	10.84	10.17

SLP Series F-Type RG-6 Coaxial Cables

The Stellar Labs SLP Series "F" type RG-6 Coaxial Cables are ideal for transporting cable TV, DSS or 75ohm RF antenna signals to your TV, or monitor. The flexible, UL listed wire features a 7.0mm outer diameter, dual EMI/RFI shielding technology, and thick polyethylene dielectric surrounding OFC conductors. The screw-lock "F" type connectors feature gold-plated, corrosion free construction to further reduce interference and attenuation, and improve video signal transmission. Limited lifetime warranty.

Order #	Length	(1-10)	(11-50)	(51-up)

Fully Shielded Cables with Teflon Insulated Gold Connectors

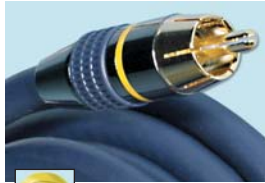

These attractive cables offer the very best in signal quality and style designed around our #50-2130 gold plated teflon insulated connectors. These cables feature 100% shielded pure copper braiding with teflon shielded center conductors, wrapped in a midnight blue outer jacket with silver connectors. 6mm diameter. **Sold in pairs.**

Composite Video Patch Cables

Stellar Labs SLP Series Composite Video Cables

Stellar Labs SLP Composite Video Cables are ideal for

long cable runs where EMI/RFI shielding and signal integrity are crucial. Featuring twisted pair, oxygen free 75ohm coaxial copper construction, and a 7.0mm thick, but flexible PVC jacket, these cables are ideal for transporting video signals with minimal degradation. •UL listed wire •Limited lifetime warranty •Available in lengths up to 150'

Order #	Length	(1-10)	(11-50)	(51-up)
24-8871	3'	\$8.99	\$8.28	\$7.77

Stellar Labs SLV Series Composite Video Cables

The Stellar Labs Value Series Composite Video Cables are high quality interconnect assemblies commonly used to connect the composite video signal on you're audio/video equipment.

Features: •EMI/RFI shielded, low-loss, 75ohm video coaxial wire helps reduce interference and improve resolution, color and brightness •Long-lasting, corrosion resistant, gold plated barrel connectors with fully over-molded, custom tooled strain reliefs. •Color-coded connectors for easy identification

Order #	Length	(1-9)	(10-up)

Composite to S-Video Patch Cables

Stellar Labs SLP Series S-Video to Composite Video Cables

The Stellar Labs SLP Series S-Video to Composite Video Cables

convert S-video signals into a composite video format for use on display equipment without S-video connections. The twisted pair, oxygen free coaxial copper construction provides the ideal media for converting your video signal with minimal degradation to signal quality. SLP cables feature dual EMI/RFI shielding, tangle free bonded wires, gold plated corrosion free shielded S-video connectors, and secure split-lock ring composite video RCA connectors. Limited life-time warranty.

Order #	Length	(1-10)	(11-50)	(51-up)
24-8852	6'	\$10.59	\$9.82	\$9.21
24-8853	9'	11.09	8.86	8.30

Stellar Labs SLV Series Composite/S-Video and Stereo Audio Cables

The Stellar Labs Value Series Composite/S-Video and Stereo Audio Cables are uniquely designed for connecting your audio/video sources and receivers. Their bonded, tangle-free construction and flexible PVC cable jacket reduces cable clutter and makes cabling interconnections effortless. The combination of S-video and composite video wires enables worry-free compatibility with video components, and the long-lasting, corrosion-resistant, gold plated barrel connectors include custom tooled strain reliefs engineered to improve durability and reliability.

Features: •EMI/RFI shielded, low-loss, dual conductor 75ohm coax S-video wire to deliver high-resolution video images •Color-coded composite video 75ohm coaxial cable that delivers clear, crisp images •Dual 26AWG shielded audio wires protect against noise and distortion •Color-coded red and white RCA audio connectors

24-9395	50'	24.95	17.42

MCM Composite Video to S-Video Adaptor Cables

With precision machined gold plated connectors and a unique circuit, these cables are designed to connect standard composite video devices to S-video inputs and vice versa. These cables are the perfect solution to problems associated with mixing composite and S-video inputs and outputs. **Note:** This unit is a passive device and although it will allow composite video signals to be used in S-video inputs the signal will remain the quality of composite video.

S-Video Patch Cables

Stellar Labs SLP Series S-Video Cables

Commonly used with DVD players, satellite receivers and VCRs, Stellar Labs SLP S-Video Cables provide excellent signal integrity and superior video quality.

The twisted pair, oxygen free coaxial copper construction provides the ideal media for separating and transporting color and brightness signals. SLP cables feature dual EMI/RFI shielding, tangle free bonded wires, and gold plated corrosion free shielded S-video connectors. •UL listed wire •Limited lifetime warranty 8Available in lengths up to 150'.

MCM Bulk S-Video Cables

Save money by purchasing your S-video cables in bulk.

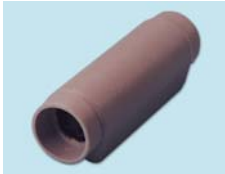

These cables are available 20 per package for home theater installations or use to give away when doing service calls.

Order #	Length	(pkg.)
24-6365	6'	\$98.95
24-6370	12'	102.00
24-6375	25'	168.00

S-Video Patch Cables

Female to Female S-Video Connector

• Connects two S-video cables together

Order #	(1-9)	(10-49)	(50-up)
27-1270	\$2.95	\$2.87	\$2.56

MCM S-Video Splitters

Useful for sharing one S-video source to two monitors or recorders.

Not recommended for using two sources on one input.

Order #	Description	(ea.)	(2-4)	(5-up)
24-7830	1 male to 2 female	\$7.29	\$6.78	\$5.97
24-7835	1 female to 2 male	8.49	7.87	6.93

Stellar Labs

SLV Series S-Video Splitting Cable

The Stellar Labs SLV Series S-Video Splitting Cables make extending your S-video signals quick and easy. The cables allow you to split the chrominance and luminance signals over standard coaxial cable.

This separation allows you to minimize signal loss and maximize cable run length. For best performance, be sure to keep coaxial cables the same length and free from kinks. Available with "F" type male or BNC female connectors. Must be purchased in pairs.

Order #	Description	(1-9)
24-9000	1' S-video to 2 BNC(f) splitter	\$23.95
24-9005	6' S-video to 2 "F" type(m) splitter	25.95

Wire and Cable

Section 1

Gold Plated S-Video Jumper Cables

For use in any number of video applications including DVDs, S-VHS VCRs, DBS satellite receivers and video games. High quality cables with molded strain reliefs and gold connectors.

Order #	Length	(ea.)	(2-4)
32-1205	6'	\$6.39	\$5.22
32-1210	12'	11.39	8.58

Component Video Patch Cables

Stellar Labs SLV Series Component Video Cables (3RCA to HD15)

These Stellar Labs Value Series video cables are uniquely designed to connect your component video output to the component RGB, and Y-Pb-Pr video input on HDTVs, LCD projectors, and satellite TVs. Now you can connect your component video device (DVD player, for example) to the VGA input connector on HDTV compatible displays, like a home theater DLP projector. **Features:** •100% shield with an overlapped foil and copper braid helps reduce interference and improve resolution, color and brightness •Fully molded, 360° soldered HD15 connector •Long-lasting, corrosion resistant, gold plated barrel connectors with custom tooled strain reliefs •Color-coded connectors for easy identification **Note:** The video display with a "VGA" connector (HD15) needs to support component video (Y-Pr-Pb) in order to properly synchronize.

Order #	Length	(1-9)	(10-up)
24-9450	1½'	\$5.29	\$3.76
24-9451	3'	8.69	6.14

Stellar Labs SLP Series RCA to BNC Component Video Cables

The Stellar Labs SLP Series RCA to BNC Component

Video Cables are precision engineered to provide superior picture quality and excellent signal integrity. SLP cables feature oxygen free coaxial copper construction, tangle free bonded wires, gold plated, corrosion free split-lock ring RCA connectors, and sure-lock BNC connectors. The flexible, UL listed cables feature a 7.0mm outer diameter, dual EMI/RFI shielding technology, and a thick polyethylene dielectric to precisely transport the red, blue and green component video signal. Limited lifetime warranty.

Stellar Labs HDMI Male/Male

DVI and HDMI Cables

HDMI enables true high-definition audio/video content for consumers. It combines high-definition video and multi-channel audio in a single digital interface to provide crystal-clear digital quality over a single cable. One cable for audio and video dramatically simplifies

home theater system installation and eliminates the cable mess behind entertainment system components. HDMI is fully backward compatible with PCs and displays incorporating DVI. HDMI systems will automatically configure to display content in the most effective format. Take advantage of the best quality available by connecting your HDMI equipment with cable by Stellar Labs HDMI certified cable.

Stellar Labs SLP Series Composite Video and Stereo Audio Cables

The Stellar Labs SLP Series Composite Video and Stereo Audio Cables make connecting your equipment a snap. The cables provide superior picture quality and excellent signal integrity for an unforgettable audio/video experience. SLP cables feature oxygen free coaxial copper construction, tangle free bonded wires, and gold plated split-lock RCA connectors. The flexible, UL listed cables have a 7.0mm outer diameter, plus dual EMI/RFI shielding technology, and a thick polyethylene dielectric to significantly reduce attenuation, and improve impedance. Limited life-time warranty.

Order #	Length	(1-10)	(11-50)	(51-up)

Stellar Labs SLV Series S-Video and Stereo Audio (3.5mm to Dual RCA) Cables

The Stellar Labs Value Series S-Video and Stereo Audio Cables are perfect for connecting your audio/video sources (MP3, DVD, and XM™ or Sirius™ satellite radio players) to TVs, home theater projectors, or A/V receivers. The unique 3.5mm to dual RCA stereo audio cable design is incorporated into the bonded, tangle-free construction to help facilitate flexibility and compatibility among audio interconnects while reducing cable clutter. The long-lasting, corrosion resistant, gold plated barrel connectors are designed with custom tooled strain reliefs engineered to improve durability and reliability. **Features:** •EMI/RFI shielded, low-loss, dual conductor 75ohm coax S-video wire to deliver high-resolution video images •Dual 26AWG shielded audio wires to protect against noise and distortion •Color-coded red and white RCA audio connectors •Male 4 pin DIN S-video to male RCA composite video

Stellar Labs

SLP Series S-Video and Stereo Audio Cables

The Stellar Labs SLP Series S-Video and Stereo Audio Cables are precision engineered to provide superior luminance and chrominance S-video signal transmission and precise twisted pair, balanced audio performance. SLP cables feature oxygen free coaxial copper construction, tangle free bonded wires, gold plated corrosion free shielded S-video connectors, and secure, split-lock ring RCA connectors. The flexible, UL listed cables feature a 7.0mm outer diameter, dual EMI/RFI shielding technology, and a thick polyethylene dielectric to significantly reduce attenuation, and improve impedance. Limited life-time warranty.

Stellar Labs

SLP Series Composite/S-Video and Stereo Audio Cables

Now you can be prepared for either composite or S-video connections with only one cable! The Stellar Labs Professional Composite/S-Video and Stereo Audio Cables feature a unique tangle free bonded wire interconnect design, and gold plated, corrosion free, shielded metal connectors that make a perfect connection every time. The cables are precision engineered to provide superior luminance and chrominance S-video signal transmission, excellent composite video translation, and precise twisted pair balanced audio performance. SLP cables feature oxygen free coaxial copper construction, UL listed wire, and a limited lifetime warranty.

Audio and Video Patch Cables

Stellar Labs

SLV Series Component Video plus Toslink Audio Cables

The Stellar Labs Value Series toslink audio/component video cables deliver the crisp, clear, superior video resolution you expect from component video together with the high signal transmission and low distortion characteristic of optical digital Toslink's natural sounding tuned spectral attenuation. **Features:** •EMI/RFI shielded, low-loss, 75ohm video coaxial wire helps reduce interference and noise, and accurately separate the component color signal (Y-Pr-Pb) for better resolution and greatly improved color saturation •Bonded, tangle-free construction reduces cable clutter •Long-lasting, corrosion resistant, gold plated barrel connectors with fully over-molded, custom tooled strain reliefs •Precision-polished fiber optic connectors for optimum signal transfer and corrosion resistance •Color-coded connectors for easy identification.

Stellar Labs

SLP Series Digital Coaxial Audio Cables

The Stellar Labs SLP Series Digital Coaxial Audio Cables are precision engineered digital coaxial interconnects ideal for DVD players, satellite receivers/TiVo®, Dolby Digital Surround Sound components, and high performance DTS. The oxygen free coaxial copper construction incorporates noise canceling technology which reduces bit error, and maintains the ideal data path to send up to six channels of surround sound audio from a single cable. The flexible, UL listed cable has a 7.0mm outer diameter, plus dual EMI/RFI shielding technology, and a thick polyethylene dielectric to significantly reduce attenuation, and improve impedance. Limited lifetime warranty.

Stellar Labs

SLP Series Single Channel RCA Audio Cables

Designed for subwoofer and mono-audio applications, the Stellar Labs SLP Series Single Channel RCA Cables are the ideal interconnect for transporting single channel audio. SLP audio cables feature twisted pair, oxygen free coaxial copper construction and gold plated, split-lock, audio RCA connectors. The flexible, UL listed cables have a 7.0mm outer diameter, plus dual EMI/RFI shielding technology, and a thick polyethylene dielectric to reduce attenuation and precisely transport superior audio quality. Limited life-time warranty.

Wire and Cable

Section 1

SLV Series 3.5mm to Dual RCA Stereo Cables

Perfect for connecting audio sources (iPod, MP3, DVD, PC, and XM™ or Sirius™ satellite radio players) to an amplifier or home theater system, the Stellar Labs Value Series 3.5mm to dual RCA stereo cables feature bonded wires and tangle-free construction to help facilitate flexibility and compatibility among audio interconnects while reducing cable clutter. The long-lasting, corrosion resistant, gold plated barrel connectors are designed with custom tooled strain reliefs engineered to improve durability and reliability. **Specifications:** • Color-coded connectors • 3.5mm male plug to dual RCA male plugs.

Order #	Length	(1-9)	(10-up)
24-9490	1½'	\$3.19	\$2.13

24-9494	25'	7.39	5.23

Stellar Labs

SLV Series Analog Audio "Y" Splitting Cables

Stellar Labs Value Series Analog Audio "Y" Splitting Cables connect a single audio source to two devices, or split a mono audio signal for connection to a stereo input. Constructed of corrosion resistant copper conductors and precision gold-plated connectors, these splitting cables are ideal for delivering stereo audio to mono devices, like older TVs and VCRs, or creating another set of stereo inputs on your receiver using two splitting cables.

Stellar Labs

SLP Series 3.5mm Stereo Audio Cables

The Stellar Labs SLP Series 3.5mm Stereo Audio Cables carry both left and right audio channels over a single cable creating a clean tangle free connection. Now you can easily playback MP3 and mini disk portable audio players on your 3.5mm input sound stereo equipment. The gold plated, corrosion free 3.5mm connectors are designed to mate securely, and the flexible, UL listed cable features a thick 7.0mm outer diameter, twisted-pair OFC construction, dual EMI/RFI wire shielding, and a thick polyethylene dielectric to significantly reduce attenuation, an improve impedance. Limited lifetime warranty.

MCM Rotary Fiber Optic Switches

These optical selector switches allow you to expand the input/outputs of your optical devices. No need to swap your expensive optical cables between multiple recorders and players. The construction of these units provides optimum light signal transfer for high quality recording and playback.

Order #	Description	(ea.)
24-6580	Toslink	\$26.99
24-6585	3.5mm	26.99

Digital Signal Convertors

Converts digital optical toslink cables to coaxial (RF) and vice versa. These adaptors are perfect for situations when your equipment does not have the input or output you would prefer. Power: 9VDC 250mA, adaptor sold separately (#28-2790)

Order #	Input	Output	(ea.)	(2-4)
24-4440	Coaxial	Toslink	\$19.99	\$19.29
24-4445	Toslink	Coaxial	19.99	19.29
24-4451	Adaptor		3.99	-

Analogue to Digital Signal Convertors

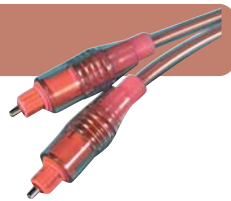

Turn analog audio signal to a digital audio data stream for use with amplifiers with digital inputs. Accepts stereo audio input via two RCA type connectors and gives digital output via coaxial (RF) and toslink. Power: 6VDC 250mA, adaptor sold separately (#24-4451)

Order #	Description	(ea.)	(2-4)
24-4435	Converter	\$60.32	\$59.27
24-4451	Adaptor	3.99	-

MCM Neon Spring-Loaded Toslink Cables

Add distinction to the digital audio system with neon cables. Spring-loaded plugs correct for tolerance errors in optical cable jacks and result in a more accurate signal transfer.

Wire and Cable

Section 1

Stellar Labs SLP Series TosLink Optical Digital Audio Cables

The Stellar Labs SLP Series TosLink Optical Digital Audio Cables provide superior audio quality and excellent signal integrity. The optical fiber provides the ideal media for transporting your audio data with no degradation to digital audio signal quality. The spring-loaded metal connectors make a perfect, high-speed contact every time. The optical fiber is immune from EMI/RFI interference, making it the connection of choice suitable for all environments. The cable has a thick, but flexible 6.00mm outer diameter for quality that you can hear and feel. Available in lengths up to 25'.

Order #	Length	(1-10)	(11-50)	(51-up)
24-8951	3'	\$19.95	\$18.40	\$15.20
24-8952	6'	28.95	22.45	18.50

24-8954	12'	40.95	21.69	19.36
24-8955	25'	53.95	33.50	29.90

Stellar Labs SLV Series Toslink Optical Digital Audio Cables

The Stellar Labs Value Series Toslink Optical Digital Audio Cables are precision engineered to maximize digital audio signal transfer by minimizing interference and distortion and delivering pure optical bit stream data. The result is superior sound quality and accurate transfer of digital audio source signals from DVD, surround sound receivers, digital cable boxes, and advanced gaming systems. High-quality precision-polished fiber optic connectors optimize signal transfer, while the PVC jacket adds flexibility and durability for years of listening enjoyment.

Order #	Length	(1-9)	(10-up)
24-9560	1 1/2'	\$5.59	\$3.95

20 Channel Cable Snakes

This is the perfect cable snake when high quality and low cost are important. All 20 channels (16 send and four return) utilize XLR type connectors, harnessed to a single heavy duty, highly flexible multi-conductor cable. The input box features durable steel construction and includes 20 chassis mounted XLR connectors, 16 female sends and four male returns. The output side features a steel cable strain relief to prevent excess stress to the connectors, both on the snake and your mixing console. •Box dimensions: 3" (H) x 7" (W) x 11 1/2" (D) •Cable diameter: 1"

3M EPS Series Adhesive Lined Shrink Tubing

Tubing is made of flame retardant flexible polyolefin and lined with a special layer of thermoplastic adhesive. When heated, the outer layer rapidly shrinks forcing the melted adhesive to flow and cover the connection. This forms a watertight seal that is far superior to standard heat shrink and tape coverings. Applications include automotive, truck and marine environments. Available in 2:1 and 3:1 ratios. Packaged in 6" pieces, black color.

EPS-200 2:1 Shrink Ratio

KORALLY Mini Heat Gun and Heat Shrink Tubing Kit

This kit includes a compact, lightweight heat gun and 60 pieces of heat shrink tubing. The mini heat gun is ideal for shrinking heat shrink tubing. **Heat gun features:** • Nozzle temperature to 1,000°F • 6' electrical cord with workbench storage loop • Uses standard 110V outlet • The general purpose heat shrink tubing shrinks to 1/2 of its original size • Includes a total of 60 pieces • Sizes include 1/8", 3/16", 1/4", 3/8" and 1/2"

Price per kit

Order #	Description	(1-3)	(4-up)
95-810	Mini heat gun and shrink tubing kit	\$39.95	\$38.00
95-815	Replacement heat shrink tubing kit only (60 pcs.)	9.95	9.77

COAX-SEAL

• A fast and easy way to waterproof coax fittings • Wraps around fittings and can be molded to any shape • Works with vinyl and poly vinyl outer covers • Stays flexible for years

Order #	(1-9)	(10-24)	(25-49)
21-1140	\$3.49	\$3.16	\$2.95

KORALLY "Beans"

• Low voltage crimp connectors • Used in telecommunications and security applications • 100 per bag • White

Order #	(1-9 bags)	(10 bags-up)
95-670	\$8.99	\$8.23

ELKAY Cable Glands

Complete cable glands with washer and locknut suitable for use where a cable needs to pass through sealed enclosures or panels.

Fig. Order #	Elkay Thread Type & Pitch	Cable Size	(1-99)	(100-up)
A	CBGLM20/1 249	M20 x 1.5 4-7mm	\$1.14	\$1.03
B	CBGLM20/2 251	M20 x 1.5 7-10.5mm	1.14	1.06
C	CBGLM20/3 252	M20 x 1.5 8-13mm	1.14	1.06

KORALLY Vinyl Grommet Assortment Pack

• Includes a total of 28 pieces • Assorted sizes: 3/8", 1/2" and 5/8" • Black

Order #	(1-9 pkgs.)	(10 pkgs.-up)
95-575	\$3.06	\$2.63

KORALLY Vinyl Grommet Variety Pack

• Includes a total of 26 pieces • Assorted sizes: 3/8", 1/2", 5/8", 1", 1 1/2", 2", 2 1/2", 3", 3 1/2", 4", 5", 6", 8", 10", 12", 14", 16", 18", 20", 24", 28", 32", 36", 40", 48", 60", 72", 96", 120", Telecrafter Products

Flex Clips

Flex Clips are exceptionally strong, long lived clips that deliver holding power without utilizing rigid materials that damage cable installations.

Flexible, polyethylene wraps around the cable, adjusts to size, and clamps into place. The Flex Clip is pliable so it will not crimp the cable. Its unique design eliminates the ongoing stresses that shorten the lives of other clips. 100 per package.

Order #	Mfr. #	Description	(pkg.)
33-4005	S4BK	Single flex clip	\$16.41
33-4010	D4BK	Dual flex clip	16.41

Telecrafter Products

Drywall Clips

Drywall clips provide a safe, damage-free attachment that is long lasting and secure. Assembly is easy; drill a 1/4" hole, place the clip over the cable and push the clip into the wall. The profile of the drywall clip allows it to almost disappear. The drywall clip is suitable for most surfaces including wood and masonry. 100 per package.

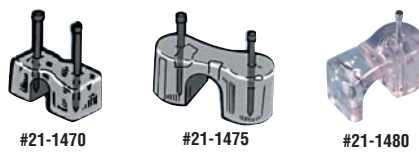

Order #	Description	(pkg.)
33-6930	Black drywall clips	\$8.09
33-6935	White drywall clips	8.09

HellermannTyton Cable Tie Mounting Base

• Adhesive or screw mounting
• Insertion can be made from all four sides • Fits nylon ties up to 6.15mm (W) x 1.58mm (thick)

Self-Adhesive Coated Aluminium Cable Clips

White matt polyester coated aluminium cable clips suitable for use in situations where the clip may be visible. Can also be used as a lightweight hook fitting. • Arm size: 44.4 x 7.9mm • Base size: 25.4 x 25.4mm • 100 per package

Order #	(1-9 pkgs.)	(10 pkgs.-up)
CBA-ACC07/PK	\$22.48	\$22.07

3M Cable Stackers

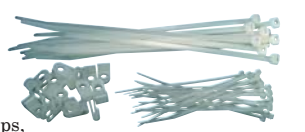

Centers multiple cables on a 2 x 4 framing member, allowing simplified compliance with article 300-4-(d) of the National Electrical Code. It organizes cable runs and aids in identification, putting an end to tangled wires and the potential heating that could occur when cables are held together tightly under a single fastener. Installation is easy with cables snapping in for a positive lock, simplifying compliance with the spacing requirements of the National Electric Code. 25 per pack.

Order #	(pkg.)
108-3892	\$7.24

Cable Clamp and Wire Tie Kit

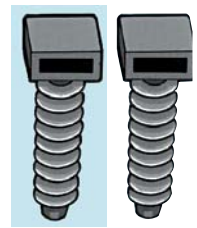

Kit contains: Nylon cable clamps, 4" and 8" nylon wire ties.

Order #	(kit)

Flexible, Semi-Rigid Split Braided Tube

F6's unique split, semi-rigid braided construction makes it the ideal solution for situations where ease of installation is of primary importance. The lateral split allows the tube to open up to accommodate a wide variety of bundling requirements, and the semi-rigid braid configuration simply closes around the entire installation without the need for any additional fasteners (velcro, tape, etc.). **Features:** •Lightweight and flexible •Easy installation •Soft and quiet in high vibration uses •25% edge overlap •Cut and abrasion resistant •Can withstand temperatures of -103°F~257°F •Melting temperature: 446°F

Order #	Nominal Diameter	Length	(1-3)	(4-up)

21-8324	1 1/2"	25'	64.95	56.60

HellermannTyton Grip-Ties

Constructed of Velcro® hook and loop material, grip-ties are a low profile, single piece fastening device that can be removed and re-used for repetitive access to cabling. Because they cannot be over cinched, they are safe for Category 5 and fiberoptic cable. Available in a variety of sizes, grip-ties can be used for most any wire bundling applications. Ten per package.

Carlson® Resi-Guard® Flexible Raceway

Flexible Raceway

Ideal for providing a main chase from the main distribution panel to a secondary hub in the attic or basement, Resi-Guard® nonmetallic flexible raceway is available in 3/4" and 2" diameters. It is hand bendable, lightweight and easily cut-to-length to reduce scrap. Additionally, the 2" diameter size includes a factory-installed 900 lb. pull tape. Bright orange color clearly signifies a low-voltage installation.

Order #	Diameter	Length	Price per roll		
			(1-3)	(4-9)	(10-up)
