

## MGC3130 Single Zone Evaluation Kit "Sabrewing"

Part Number: DM160217

## MGC3130 Single Zone Evaluation Kit “Sabrewing”

Part Number: DM160217

This tool provides a complete solution for exploring the low-cost, high-performance MGC3130 3D Tracking and Gesture Controller. This board is USB-powered, it contains a 7-inch sensing electrode, and it comes with the GestIC<sup>®</sup> Technology Colibri Suite, which is a set of gestures running on the chip. In addition, Microchip's feature-rich Aurea Graphical User Interface (GUI) running on the Windows 7 Operating System provides control of the MGC3130's settings, making it easy to update and save parameters.

The single zone evaluation kit “Sabrewing” is a complete solution for exploring the low-cost, high-performance MGC3130 3D Tracking and Gesture Controller based on Microchip’s GestIC<sup>®</sup> technology. Features include:

- 7” sensing electrode
- Powered by USB
- GestIC<sup>®</sup> technology Colibri Gesture Suite

Microchip’s feature-rich [Aurea Graphical User Interface \(GUI\)](#) running on the Windows 7 Operating System, provides control of the MGC3130’s settings, making it easy to update and save parameters.

### Package Content:

- MGC3130 Single Zone Evaluation Kit “Sabrewing”
- USB cable
