## CY8CKIT-010 PSoC® CY8C58LP Family Processor Module Kit

**Last Updated:** 01/04/2013

The CY8CKIT-010 PSoC® CY8C58LP Family Processor Module is designed to evaluate and experiment with Cypress's PSoC 5 programmable system-on-chip design methodology and architecture.

This processor module must be used in conjunction with the PSoC Development Kit (CY8CKIT-001) to create designs utilizing on-board DVK resources or compatible expansion boards. This kit provides you with an additional processor module to use with different projects.

### Kit Contents:

- PSoC® CY8C58LP Family Processor Module
- Kit CD, which includes: PSoC Creator™, PSoC Programmer, and Documentation

For PSoC training, please visit <http://www.cypress.com/go/training> .

Software Title	Description	Link
PSoC Creator	This kit requires PSoC Creator for development	<a href="#">Download</a>
PSoC Programmer	This kit requires PSoC Programmer for programming	<a href="#">Download</a>

**Note:** *The installation file will install the sample projects onto your system*
