5.3)	Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases:	In case of fire may be liberated: Carbon monoxide, Carbon dioxide or other hazardous fumes. At soldering with open flame the flux can inflame and burn. At very high temperatures metal fumes can be set free.
5.4)	Special protective equipment for fire-fighters:	In case of fire: Wear self-contained breathing apparatus.
5.5)	Additional information:	Do not inhale explosion and combustion gases. Co-ordinate fire-fighting measures to the fire surroundings.
6.)	ACCIDENTAL RELEASE MEASURES	
6.1)	Personal precautions:	Wear personal protection equipment. Provide adequate ventilation.
6.2)	Environmental precautions:	Do not allow to enter drains / surface water / ground-water.
6.3)	Methods for cleaning up:	Take up mechanically, placing in appropriate containers for disposal.
6.4)	Additional information:	No special information.
7.)	HANDLING AND STORAGE	
7.1)	Handling: Advices on safe handling: Protective measures:	Avoid inhalation, skin and eye contact.
	Technical measures:	Do not let the product leak into canalization, waters or ground.
	Specific requirements or handling rules:	Always close containers tightly after the removal of product.
	Precautions against fire and explosion:	Usual measures for fire prevention. Product can burn at use of flame soldering.
