Slimline DB9 or DB25 Null Modems, Adaptors and Reversers - Communicate Without Modems

L-com's series of Null Modems and Reversers are completely shielded. More important, their extremely low profile reduces leverage strain and breakage on the overstressed computer ports. The Null Modems shown are typical of our Slimline manufacturing technique. These are also available in virtually any wiring configuration. OEM users are requested to send wiring data for our consideration.
