Description

Whatever your switching application the **ELITE Remote control system** with 4 individual 230V outputs and it's completely waterproof IP68 enclosure will be a great choice.

The **ELITE remote control system** has been designed with the requirements of electricians in mind and therefore it can be used to switch all lighting types as well as other applications such as Water Features, Electric gates and Garage Doors.

Each receiver has 4 switched outputs. Using our one touch 'easy-learn' process each relay can be controlled from any switch on any compatible transmitter.

Thanks to the latest technology each of the 4 outputs on the **ELITE remote control system** can be set to operate in momentary or latching or individually timed output for complete flexibility.

The Receiver unit includes, self test mode, Receiver signal strength indicator, any Tx button to Any Rx output,
