

## AM 25 Slitter

Part number: 1820  Technical

### Description

The original tool for slitting cable insulation from PVC, Teflon & THHN insulations. (Note: Not for polyethelene, polypropylene or XLP insulations).

### Features

- Adjustable cutting depth for insulation up to .18" (4.5 mm) thick
- Blade swivels for circular, longitudinal & spiral cuts - great tool for window slits!
- Cable holding clip with integrated edge to remove slit insulation
- Blade storage in handle

### Advantages

- Blade stays centered as it swivels to assure precise slits in the cable jacket
- Perfect tool for armored cable
- Includes spare blade in handle
