

SA1W-FP3F WATER DETECT SENSOR

Key Features

- Innovative non-contact water detection sensor
- Accurate sensing through transparent materials
- Long sensing range; 31.5in (800mm)
- High speed response time: 0.5msec
- Selectable through beam or diffuse reflective fiber cable
- Visible red LED ensures application set up

Specifications

Product Type Water

Optical Function Through Beam|Diffuse Reflected Light

Operation mode Light ON|Dark ON

Output Type PNP
