

**NET
10^G**

Features & Benefits

- ✗ Cat 6A performance
- ✗ Suitable for 10-Gigabit Ethernet
- ✗ Fully shielded die-cast design
- ✗ No special tooling required
- ✗ Industry standard Keystone fitting
- ✗ Tool-less snap-to-fit module

Connectix Cat6A modules have been designed to provide the exceptional performance required to support extremely high speed applications, including 10-Gigabit Ethernet.

When used with Cat 6A cable, they provide an outstanding transmission medium free from the problems of alien crosstalk.

The tool-less and snap-to-fit Keystone module ensures a quick and easy to terminate installation. And the standard Keystone fitting allows the use of the same module in patch panels, wall outlets and a variety of other applications.

Specification

Conforms to	EIA/TIA 568-B2-10 Category 6A IEEE802.3an Gigabit-Ethernet
Mounting hole size	19.3 x 14.7 mm
Recommended back-box depth	32.0 mm
Width	18.0 mm
Depth	44.2 mm
Height	22.8 mm
Life (operations)	min. 750
Shielding housing	zinc die-cast
Colour code	T568B

Ordering Information

Product Description	Part Number
CCS Cat 6A FTP tool-less keystone	008-010-010-10
CCS 45 x 45 Dual Angled Keystone clip (2 x RJ45 slot)	008-001-001-18

For Shielded Keystone Patch Panels please see page 7
