The compact design of the Connectix Office System Cabinet makes it the ideal housing for small network requirements, allowing integration of voice, data, ISDN and internet connections in one neat unit. The cabinet has been designed to fit perfectly into both the office and home environment, and has an 8u capacity for the Connectix Office System range of 10" networking hardware and patching equipment.

The cabinet is available in a black or grey finish and comes with a fully detachable outer casing allowing free access during installation. The lockable smoked acrylic door enables easy patching from the front of the unit, and cable access glands are situated in the top and bottom to assist installation. They also have added ventilation slots in both sides.

An extensive range of cabinet accessories are available, including; shelves, blank panels, brush strip panels and cable tidy panels.
